Play Time: Approximately 4-5 Hours*
Charge Time: Approximately 5-6 Hours
Dimensions: 182x84x64mm

*Applicable at 80% of maximum volume. Results will be lower when volume is higher.

Pairing Your Speaker with a Bluetooth Device

Your speaker can be paired with most Bluetooth devices including iPads, iPhones, iPod Touches, and most smartphones, laptops and tablets. In order to pair your speaker with a phone, follow the steps below:

1. Press and hold the Power/Mode button to power on your speaker. Wait for several seconds until an LED indicator light will start alternately flashing red and then blue repeatedly. This indicates that your speaker is in pairing mode.
2. Go to the Bluetooth Manager of your Bluetooth device.
3. Search Bluetooth devices and select "Vivitar Speaker" to start connecting.
4. Enter "0000" if your device asks for the PIN code.
5. Once paired, the LED indicator light will slowly blink blue every few seconds.

Switching Modes (Using the TF Card Reader Slot & Auxiliary Input)

If a memory card is inserted in the TF Card Reader slot your speaker will automatically go into Music Mode in which music is played from the memory card. Similarly, if an audio source is connected through your speaker's Auxiliary Port your speaker will automatically go into Auxiliary Input Mode. Repeatedly press the Power/Mode button to switch between Bluetooth Mode, Music Mode or Auxiliary Input Mode.

Note: For a private listening experience, you can plug a pair of headphones into the Headphone Jack on the rear of your speaker.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
