

## Bluetooth Speaker User Manual

Please make sure the Bluetooth speaker is powered on.

- PC connection:
  - A. Install Bluetooth software if the PC doesn't have one.
  - B. Plug in the Bluetooth adapter and turn it on.
  - C. Power on the speaker and enable its connection.
  - D. Refresh, match and connect.
- Phone connection:
  - A. Turn on cell phone Bluetooth.
  - B. Search Bluetooth equipment.
  - C. Match and connect.
  - D. Play music.

## Notes

1. Hands-free calls only be used when Bluetooth connection works. Strong high frequency and EMI will affect performance, please avoid using under such environment.
2. Transmission distance varies to different terminals. Please use standard playback device.
3. Pop sound may exist during the music pause/stop due to some player's lack of gradual-in and out function.
4. If Bluetooth can not be matched, please delete other Bluetooth devices and reboot the speaker. Rescan, then matching succeed.
5. Acoustic fidelity may be affected in the following cases:
  - a) Users' Bluetooth equipment's management is abnormal or the signal is instable;
  - b) Equipment's electric tension is low ;
  - c) Other influences to the speaker. For example, if strepitus exists when users are calling or playing music, the Bluetooth speaker will magnify these strepitus.
6. Primary waterproof function: splash on the surface will not influence its performance. (Dust proof cap should be closed.)

## Details

1. Description
  - Size:Ø62\*H59mm
  - Weight: 90g
  - Resistance: 4Ω
  - Output power: 3W
  - Port: Micro USB
2. Bluetooth Parameters :
  - Frequency response: 100Hz-200KHz
  - Receive sensitivity: -91Db,@0.1%BER
  - RF Range: 10M
3. Battery:
  - Battery Type:Lithium(built in) 300mAh
  - Playback Time: 5-7H, 70%Volume
  - Charging Standard: DC 5V
  - Charging Time: 1.5-2H
4. Accessories:
  - USB Charging Cable
  - User manual
  - Warranty Card

**FCC Notice:** this device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Caution:** The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or change to this equipment.

## Note

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
