

Models Differences Exhibit

Product description side by side:

Char-Broil Model: 14202004 (725 square inch cooking space) cooking space, max power is 700W)

Char-Broil 14202005 (1000 square Inch cooking space, max power is 700W)

Char-Broil 4632466XX

("XX" - Numbers for optional sales year and carton packaging. For example:18, 19, 20etc.)

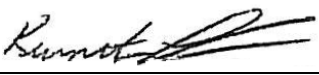

(2000 square Inch cooking space, max power is 800W)

The smokers are identical inside electrically. The only difference is the size of cooking space as shown with each picture and the power basis on different size.

The regulatory label is not the marketing label, therefore using one regulatory Label for all these products will streamline the labeling process.
