9. Bluetooth button: press and hold it for 2 seconds to enter pairing status
10. Reset button: press and hold it for 2 seconds to Restart the product
11.  touch button: press it to turn on/off backlight

Usage

Follow the simple steps below to set up your ThermoPro Bluetooth Thermometer/Hygrometer and remotely monitor the temperature and humidity of your living room, bedroom, greenhouse and etc. from your smartphone!

Step 1: Download and install the “ThermoPro Sensor“ App.

Scan the QR code above, or search for “ThermoPro Sensor” on the Apple Store for IOS devices or on the Google Play Store for Android devices. Download the App and install it on your smartphone.

*iPhone and iPad apps for IOS 9.0 and above.

*Android app for versions 4.4 and above.

*Android users need to allow all the requests about this app from Android system.

Step 2: Enable Bluetooth on your smartphone under the smartphone Settings section. If your smartphone has Bluetooth enabled, you can skip this step.

Step 3: The temperature and humidity will be displayed on the screen and the Bluetooth icon  will be flashing at the top of the display. The Bluetooth icon  will be flashing for 2 minutes which indicates that the thermometer is ready for pairing to your mobile phone.

Step 4: Launch ThermoPro Sensor APP and press  to add a thermometer. The thermometers will be shown on a list and select one to pair. Once pairing is complete, the Bluetooth icon  on the thermometer display will stop flashing and the current temperature and humidity will show on the APP. If the Bluetooth icon  stops flashing and you haven't finished the pairing, press and hold the  button for 2 seconds and the  will be flashing again ready for pairing.

Done! Your ThermoPro Bluetooth Thermometer is ready for use!

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
