# Safety Instructions

Read all instructions before you use this device and follow all instructions. If physical injury, loss of data or damage is caused by failure to follow instructions, the warranty does not apply.

- 1. Do not look straight into the project lens during operation. It may harm your sight.
- 2. Do not block the projection lens with any objects when the device is under operation as this could cause objects to become heated and deformed or even cause a fire.
- Do not block or clog the air ventilation. Always leave at least 20" clearance around this device for ventilation.
- Protect this device from overexposure to direct sunlight, heat, large temperature fluctuations, and moisture.
- 5. Forbid the fan to blow directly to the ventilation.
- 6. Avoid extreme vibrations and always handle this device with care.
- Disconnect the power cord from the AC outlet if the projector is not being used for a long period of time.
- Do not make any repairs to this device yourself. Only have your device repaired by an authorized service center.

# Limited Warranty

OVO warrants its product to be free from defects in material and workmanship, under normal use, for 12 months from the date of purchase. If a product proves to be defective in material or workmanship during the warranty period. OVO will repair or replace the product with a like product at its sole option. Replacement product or parts may include remanufactured or refurbished parts or components. This warranty is valid only for the first consumer purchase. You will need to provide your product's serial number. For information about receiving service under warranty, please refer to www.ovotv.com.

Information in this document may change without notice.

### FCC Compliance Statement

This device complies with part 15 of FCC Rules. Operation is subject to the following conditions: (1) this device may not cause harmful interference, and (2) this device must accept any inference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measure:

- · Reorient or relocate the receiving antenna.
- · Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- · Consult the dealer or an experienced radio/TV technician for help.

The antenna(s) used for this transmitter must not be collocated or operating in conjunction with any other antenna or transmitter.

The device was tested and complies to measurement standards and procedures specified in FCC CFR Tile 47 Part 15 Subpart C.

#### Warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment. This device complies with FCC radiation exposure limits set forth for an uncontrolled environment. This device should be installed and operated with minimum distance 20cm between the radiator & your body.
