INSTRUCTIONS FOR USE

Charging the speaker

The speaker has built-in rechargeable battery. When the battery is drained out, device would turn OFF automatically. Please recharge the battery every time it drains out. Plug the Micro USB end of the included USB rechargeable cable with Aux pin into the charging port. Plug the other end into a USB port on your computer or other devices made for USB charging. Red LED Light illuminates indicating that the device is being charged. It takes up to 3 hours to fully charge the device. Once the device is fully charged, LED Light would turn OFF.

Turning ON/OFF the Speaker

Before Turning ON the device, please ensure that the unit is fully charged. To Turn ON the device – Slide the On/Off button to “ON” position. To Turn OFF the device – Slide the On/Off Button to “OFF” position.

Connect using Bluetooth Technology (manually)

- Turn On the Speaker. You would hear a start-up tone, and Blue LED light would flash rapidly, indicating that you are now in Bluetooth Pairing Mode.
- Activate the Bluetooth function on your source device (Mobile Phone or Tablet). Please refer to manufacturer’s instructions for instructions on enabling Bluetooth on your device.
- Search for available Bluetooth devices and you would find “SL BRICK” – Pair it with this device.
- If required, enter the password “0000” to pair with the device
- Wait for few seconds and you will hear “Beep” sound from the speaker, indicating pairing has been successful.

3

- You can now stream wireless music on your speaker through your source device.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: Modifications to this product will void the user's authority to operate this equipment.
