

JADAK/PRI Bluetooth Module

FCC ID Label Artwork

FCC ID: 2AAVI-6XYZ-0003-01; IC: 11355A-6XYZ000301

The FCC ID label is shown in the picture below as attached to the rear of the PCB assembly. Pursuant to FCC 15.19(b)(5), the label material is a permanent polyester thermal transfer material (Brady B-423 label stock) with a permanent acrylic adhesive backer. The ink (Zebra 5095 Performance) is resin-based and is designed for use on synthetic label material and to withstand harsh environments. It provides excellent smear and scratch resistance. The size of the label is 2.00 in by 0.65 in.
