

Label Drawing & Location Drawing

The module is appropriately labeled (content is shown in Figure 1).

- Labels are attached in a manner such that they will remain fastened to the device during the expected life of the product.
- The “minimum size” is that the text must be legible.
- Module label is on main carriage block housing (refer to Figure 2) and will not be visible when carriage cover is installed, however the approval ID information will be visible the rear vent panel label (refer to Figure 3).
- Label with approval ID information is readily visible to the user of the device without the use of tools.

Instructions to the end user regarding the labeling requirements for host devices are included in this application.
