

## Antenna Specification of PIEX01 module (RFID)

Frequency range	13.56 MHz fixed
Type of antenna	Integral loop antenna
Description	The antenna is a 4-turn loop of 0.004-inch trace width with 0.004 inch spacing between the traces in square shape with truncated corners. The outer dimension is approximately 13.9 mm x 10.6 mm. The inductance is approximately 450 nH.
