Product Specification

Product Name	LED LAMP
Model No.	11A19060WCCTMxx
FCC ID	2AB2Q-11A19060WCCTM
Microwave Frequency Band	5.8 GHz±75MHz
Working Voltage	120Vac

For additional help, regulatory and safety Information, please go to:
Federal Communications Commission (FCC) Interference Statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference.
(2) This device must accept any interference received, including interference that may cause undesired operation.
The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

・ Motion Sensor Detect Range: 25 Ft.
・ Hold-time: Light will keep stay on 35s ±3 after motion stops
・ When the bulb powered on, the bulb will lights on about **10s**, then light off, the motion sensor starts to detect the react it based on the movement around.
