

Use and Care Guide

Wi-Fi Smart Plug

1. Safety information

WARNING:

- For indoor use only.
- Do not immerse in water or use the device in wet locations, e.g. bathrooms or outdoors.
- The devices are not intended for use in locations where the temperature may be less than actual room conditions, such as unheated warehouses or garages.
- The total current limit of the device is 15A. Do not exceed this value!
- If a direct short is created on the output, the Smart Plug will be damaged and no longer function.
- Do not disassemble the product, or make repairs yourself. You run the risk of electric shock and voiding the limited warranty. If you need service, please contact us.
- Do not connect after each other.

2. Package Contents

Wi-Fi Smart Plug *1

Quick start guide*1

6 Trouble shooting

1. Q: What devices can I control with the Smart Plug?

A: This Smart Plug is rated for a maximum of 1800 watts (15 amps at 120 volts) so you can control lights, fans, humidifiers and any small appliances that the maximum wattage is less than 1800 watts.

2. Q: What can i do, if the smart plug network configuration process has failed, LED indicator always is blinking Green.

A:

- Confirm that the plug, smartphone and router are close to each other.
- Confirm your router is turned on and is receiving data.
- Confirm you are not connecting to a 5G network (only 2.4G is supported).
- Confirm you are not using a network that requires a web browser login. (i.e. Public Wi-Fi)
- Confirm you have entered your Wi-Fi password correctly.
- Check if the number of Wi-Fi devices that are connecting to your router has reached its limit. If so, please remove some devices from this Wi-Fi network and restart the router.
- Unplug your Smart Plug and plug it back in. Confirm the Smart Plug is powered on. Press and hold the power button on the Smart Plug for 5 to reset.

3. Q: How to factory reset the smart plug.

A: Press and hold the power key 5s until the Led indicator blinking Orange. Once Reset is finished LED indicator will blinking green slowly.

FCC Statement

FCC ID: 2AB2Q-7APLWA1

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference.
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

RF Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.

IC Statement

IC: 10256A-7APLWA1

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

IC 20cm RF

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body.

Cet équipement est conforme aux limites d' exposition aux rayonnements de la IC établies pour un environnement non contrôlé. Cet équipement doit être installé et fonctionner à au moins 20 cm de distance d' un radiateur ou de votre corps.
