Trademarks and Licenses

ION Audio is a trademark of ION Audio, LLC, registered in the U.S. and other countries.

The *Bluetooth* word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by ION Audio is under license.

All other product or company names are trademarks or registered trademarks of their respective owners.

Safety Instructions: Read and follow these instructions, heed all warnings, and keep this document in a safe place for future reference. Clean only with dry cloth. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped. Connect this product to a power supply only of the type described in these operating instructions, or as marked on the unit. Keep this product away from direct contact with liquids. The apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.

Caution: To reduce the risk of electric shock, do not remove any cover. No user-serviceable parts inside. Refer servicing to qualified service personnel only.

Notice Concerning FCC Regulations: You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (a) reorient or relocate the receiving antenna; (b) move this unit; (c) increase the separation between the equipment and receiver; (d) connect the equipment into an outlet on a circuit different from that to which the receiver is connected; (e) be sure that all cables are properly shielded, using a choke or ferrite where appropriate; (f) consult the dealer or an experienced radio/television technician for help.

THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRE OPERATION.

FCC RF Radiation Exposure Statement: This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RSS Statement for Canadian models: This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device

ESD / EFT Warning: This unit may contain a microcomputer for signal processing and control functions. In very rare situations, severe interference, noise from an external source, or static electricity may cause it to lock up. In the unlikely event that this should happen, turn off the unit, wait at least five seconds, and then turn it back on again.

Correct Disposal of This Product: This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmentally safe recycling.

IC déclaration:

Cet appareil est conforme aux CNR exemptes de licence d'Industrie Canada . Son fonctionnement est soumis aux deux conditions suivantes :

(1) Ce dispositif ne peut causer d'interférences ; et

(2) Ce dispositif doit accepter toute interférence , y compris les interférences qui peuvent causer un mauvais fonctionnement de l'appareil.

Quick Setup

Press the Open button on Patio Mate and fit the base to a pole style umbrella. The clamp fits 1.0"–1.6" (25–41 mm) diameter umbrella poles. Use the included strap with a cantilever style umbrella. Pass the strap through the mounts and fold the flap over the Velcro strips to hang from a cantilever umbrella.

Features

Front Panel

- 
- The diagram shows a horizontal row of controls. From left to right: two small dots (1), a power button (3), a Bluetooth symbol (4), a light bulb symbol (5), a minus sign (6), a plus sign (7), and a rectangular button labeled 'CHARGE/AUX' (8). Callout 2 points to the two dots.
1. **Power/Charging LED:** The LED will be solid green when powered on, flash red when the battery is low, and is solid red when charging. If the unit is powered on while charging, the LED will turn green when battery charging is completed. If the unit is powered off while charging, the LED will turn off when charging is completed.
 2. **Pairing LED:** The LED will blink blue when pairing. The LED is solid blue when pairing is established.
 3. **Power:** Hold this button for 2 seconds to power on or off. If the unit is on, with LEDs turned off, and no audio playing, the unit will power off after 5 minutes.
 4. **Bluetooth:** Press and release to disconnect a currently paired Bluetooth device and start pairing to another device. Patio Mate will pair to the nearest previously connected Bluetooth device when powered on.
 5. **Light Control:** Press this button to adjust the brightness settings for the lights: LED high, LED low, and off.
-: Press this button to adjust the volume down.
 6. -: Press this button to adjust the volume down.
 7. +: Press this button to adjust the volume up.
 8. **Charge/Aux:** Open this rubber door that covers the 2 input ports. The micro USB port charges the unit and the 1/8" (3.5mm) Aux input connects to line-level devices such as media players, tablets, or CD players.

Top Panel

1. **Clamp:** Attach this to an umbrella pole between 1.0"–1.6" (25–41 mm) in diameter.
2. **Lights:** Provides different levels of brightness set by the Light Control button.
3. **Speakers:** Outputs the audio from a paired Bluetooth device.
4. **Open Latch:** Press this to open the latch and fit the clamp on an umbrella pole. To close, press the latch while inserting it into the locking mechanism.
5. **Strap Mounts:** Pass the included strap through these mounts and secure Patio Mate to a cantilever style umbrella.

Pairing a Bluetooth Device

1. Turn on your Bluetooth device.
2. Power on Patio Mate and it will automatically go into pairing mode to search for Bluetooth devices.
Note: Voice notifications will be heard when operating Patio Mate (e.g., "Power On", "Bluetooth Pairing", "Bluetooth Connected"). If you wish to disable these, hold the Light Control button for 4 seconds. To enable voice notifications again, hold the Light Control button for 4 seconds.
3. Navigate to your Bluetooth device's setup screen, find "Patio Mate" and connect.
Note: If your Bluetooth device prompts for a pairing code, enter **0000**.
4. Press and release the Bluetooth button to disconnect a paired Bluetooth device.
5. Repeat step 3 to pair to another Bluetooth device.

Technical Specifications

| | |
|---|---|
| Audio Output Power | 6W Peak (2 x 3W Peak) |
| Audio Frequency Response | 120 Hz – 18 kHz |
| Bluetooth Profile | A2DP |
| Bluetooth Range * | 100 feet (30 m) |
| Battery Type | Built-in rechargeable lithium-ion battery |
| Battery | Battery life (when fully charged): Up to 9 hours with just the lights on ** Up to 48 hours with only music playing. ** Up to 8 hours with lights and music. ** Recharge time: 6 hours |
| LCD Brightness | 80 lumens (High Setting); 40 lumens (Low Setting) |
| Power Supply | Micro USB port for charging (power adapter sold separately). You may use your tablet's/smartphone's 5V DC, 500mA USB power adapter. |
| Water Resistance | IPX4 |
| Dimensions (width x depth x height) | 7.87" x 7.87" x 1.57" 20 cm x 20 cm x 40 cm |
| Weight | 1.10 lbs. 0.50 kg |

Specifications are subject to change without notice.

* Bluetooth range is affected by walls, obstructions, and movement. For optimal performance, place the product in the center of the room so it is unobstructed by walls, furniture, etc.

** Battery life may vary based on temperature, age, and volume usage of product.

Manual Version 1.1

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warnings:

This device complies with Industry Canada's licence-exempt RSSs

Operation is subject to the following two conditions:

(1) This device may not cause interference and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique

à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

This radio transmitter (identify the device by certification number, or model number if Category II) has been approved by Industry Canada to operate with the antenna types listed below with the maximum permissible gain and required antenna impedance for each antenna type indicated. Antenna types not included in this list, having a gain greater than the maximum gain indicated for that type, are strictly prohibited for use with this device.

Le présent émetteur radio (identifier le dispositif par son numéro de certification ou son numéro de modèle s'il fait partie du matériel de catégorie I) a été approuvé par Industrie Canada pour fonctionner avec les types d'antenne énumérés ci-dessous et ayant un gain admissible maximal et l'impédance requise pour chaque type d'antenne. Les types d'antenne non inclus dans cette liste, ou dont le gain est supérieur au gain maximal indiqué, sont strictement interdits pour l'exploitation de l'émetteur
