

DIXIX

How to use
PX747

To operate this product,
please follow the
instructions carefully.

Bluetooth® Speaker

GET READY!

Charge the Bluetooth® Speaker with a micro USB charging cable with adaptor (not included). The micro USB adaptor (5V output) of mobile phone is also compatible for charging up.

Bluetooth® pairing

Slide the power switch to turn "ON". The blue indicator light will be flashing. Place your Bluetooth® wireless technology enabled device in discovery mode. Select "DX-747" to connect this speaker. If the connection is successful, a beep sound will be heard and the blue indicator will be flashing 2 times within 1 second.

Can be connected with 2 devices at the same time

The Bluetooth® Speaker can support 2 devices access at the same time if both devices had been paired before and the Bluetooth® mode are "ON". Make sure the speaker is not connecting with any devices when a new device pair with it.

Microphone

Press the Volume buttons or adjust the volume of your mobile phone to set the loudness during phone conversation.

Indicator light

- * Blue indicator flashing: Bluetooth® mode
- * Red indicator on: Charging mode
- * Red indicator off: Battery full

Play/Pause/Talk

Play and pause the music during playback, and pick the phone call during ringing on.

Volume Up/Down

A two beep sound will be heard when the maximum or minimum level is reached.

3.5mm Jack

Compatible to other audio appliances with 3.5mm Jack.

Charging up

A beep sound will be heard during the low battery level.

After a long time of not using the Bluetooth® Speaker, or an abnormal sound is heard due to exhausted battery, please re-charge the speaker.

It requires approximately 3 hours to charge fully and may take longer depending on the available current from the power source.

FCC Information and Copyright

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates,

uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference

to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does

cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is

encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF warning statement: the device has been evaluated to meet general RF exposure requirement , The device can be used in portable exposure condition without restriction.
