FPO

Getting Started with Connect

august

Install Lock

Follow Installation Guide included with your August Smart Lock before configuring August Connect.

Plug In

Plug your August Connect into a power outlet near your door and wait for the flashing green lights.

(If you don't see the flashing green light, press and hold the button for 15 seconds, then wait).

Connect

On the Lock Settings screen in the August app, select "Connect to Wi-Fi" and follow the instructions.

Use

Operate your lock and view its status from anywhere you have an Internet connection using the August app.
