Cleaning Your Smart Toothbrush

Keep your sonic toothbrush clean by rinsing it down and wiping it with a clean, damp cloth.

A mild soap can be used if needed.

Do not place your toothbrush, or any of its components, in the dishwasher.

Storing Your Smart toothbrush

Storing– If you are not going to use it for an extended period of time, unplug the charging base, clean all parts and store them in a cool, dry place away from direct sunlight.

Environment

Do not throw away the appliance with the normal household waste at the end of life, but hand it in at an official collection point for recycling.

By doing this, you help to preserve the environment. The built-in rechargeable battery contains substances that may pollute the environment. Always remove the battery before you discard and hand in the appliance at an official collection point. Removing the rechargeable battery. This process is not reversible.

To remove the recharge battery, you need a flat-head (standard) screwdriver. Observe basic safety precautions when you follow the procedure above. Be sure to protect your eyes, hands, fingers and the surface on which you work.

Guarantee Restrictions

The terms of the international guarantee do not cover the following:

- Brush head.
- Damage caused by misuse, abuse, neglect, alterations to unauthorized repair.
- Normal wear and tear, including chips, scratches, abrasions, discoloration or fading

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against

harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from

that to which the receiver is connected.

--Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
