For the fastest and safest charge, use your PowerPort Wireless with an Anker USB charger. USB chargers with an output lower than 5 volts / 2 amps may not work.

Verwenden Sie für die schnellste und sicherste Ladung Ihres PowerPort Wireless ein Anker USB Ladegerät. USB Ladegeräte mit einem Output geringer als 5V/2A funktionieren möglicherweise nicht.

高速かつ安全に充電するために、Anker製のUSB急速充電器と一緒にご使用下さい。USB急速充電器の出力が5V/2A未満の場合、充電が適切に行われない場合があります。

Pour une charge sûre et rapide, utilisez votre PowerPort Wireless avec un chargeur USB Anker. Les chargeurs USB ayant un courant de sortie inférieur à 5V/2A peuvent ne pas fonctionner.

Per ricariche più rapide e sicure, utilizza il tuo PowerPort Wireless con un Alimentatore USB Anker. Alimentatori con uscite inferiori a 5 volt / 2 ampere potrebbero non funzionare.

Para recargas más rápidas y seguras, usa tu PowerPort Wireless con un cargador USB Anker. Cargadores USB con salida menor de 5 voltios / 2 amperios podrían no funcionar.

为保证安全快速充电，请配合Anker USB充电器一起使用PowerPort Wireless。输出电压低于5V/2A的USB充电器可能导致无法正常充电。

لضمان الشحن بأعلى سرعة وأمان، استخدم PowerPort Wireless مع شاحن USB من Anker. قد لا تعمل شواحن USB ذات الإخراج الأقل من 5 فولت / 2 أمبير.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
