A WARNING

For your safety, while boating, keep the volume to a level at which external sounds can be heard.

- 1. This unit has precision parts inside. Even in the event that trouble arises, never open the case, disassemble the unit, or lubricate the parts.
- 2. FCC STATEMENT
- 2.1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference. (2) This device must accept any interference received, including interference that may cause undesired operation.

2.2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This guipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. Increase the separation between the equipment
- and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body

- 3. IC warning 3.1. This device complies with Industry Canada licenceexempt RSS standard(s).
 - Operation is subject to the following two conditions:
 - (1) This device may not cause interference, and
 - (2) This device must accept any interference, including interference that may cause undesired operation of the device.
- 3.2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- 3.3 Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes

l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

C € 0700

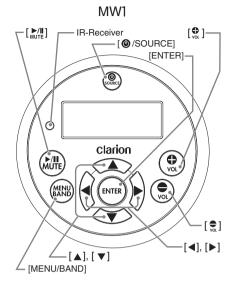

This equipment is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC

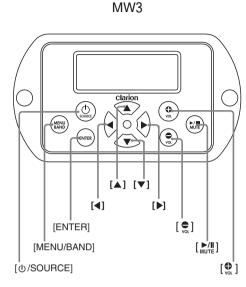

CAUTIONS ON HANDLING

Exposure to extreme heat and direct sunlight may hinder the performance of your Clarion product. In the event this happens, allow the unit to cool down before use.

Radio (AM/FM) Operation

Selecting the Tuner Mode

select the AM/FM mode.

World Tuner

This unit is initially set to USA frequency intervals of 10 kHz for AM and 200 kHz for FM. When using it outside the USA, the frequency reception range can be switched to the intervals below.

		U.S.A standard	Europe standard	Aisa standard	Australia standard
AM	Frequency spacing	10kHz	9kHz	9kHz	9kHz
	Frequency range	530-1710 kHz	531-1602 kHz	531-1620 kHz	531-1620 kHz
FM	Frequency spacing	200kHz	50kHz	50kHz	100kHz
	Frequency range	87.9-107.9 MHz	87.5-108 MHz	87.5-108 MHz	87.5-108 MHz

♠ [▶] Tuning Up / [◄] Tuning **Down Buttons**

- 1. Press the [▶]/[◀] button change intervals step by step.
- 2. Press and hold the [▶]/[◀] button to seek to the next strongest station.

Recalling a Preset Station

A total of 10 preset positions (P1~P10) exists to store individual radio stations in memory. Press [▲]/[▼] button to select the desired preset station.

Presets

- 1. Select the desired station with seek tuning or manual tuning.
- 2. Press and hold the [▲ / ▼] button
- 3. Press the [▲ / ▼] button to select a preset number.
- 4. Press the [ENTER] button to store current station into preset memory.

Auto Store

Only stations with sufficient signal strength will be detected and stored in the memory.

- 1. Press the [MENU/BAND] button access the System Menu.
- Press the [▲/▼] button until "Auto Store" is displayed.
- 3. Press the [ENTER] button to start automatically select nine strong stations and store them into nine presets. The new stations replace any stations already stored in the band.

Note: Press [MENU/BAND] button to exit.

LO/DX

When LOCAL seeking is ON, only those radio stations with strong radio signal would be received.

- 1. Press the [MENU/BAND] button access the System Menu.
- 3. Press the [▲/▼] button until "LO/DX" is displayed.
- 4. Press the [◀ / ▶] button to select local (LO) or distant (DX) mode.

Note: Press [MENU/BAND] button to exit.

Area Selection

This option allows you to select the appropriate frequency spacing for your area.

- 1. Press the [MENU/BAND] button access the System Menu.
- Press the [▲/▼] button until "Area U.S.A" is displayed.
- 3. Press the [ENTER] to enter Area mode.
- 4. Press the [◀ / ▶] scroll through the Area options:

"Area U.S.A", "Area Europe", "Area Asia", "Area AUST (Australia)"

Note: Default is USA frequency. Once the region is changed, all the stations in the preset memory will be erased.

Weather Band Operation

◆ [▶] Tuning Up/[◀] Tuning **Down Buttons**

- 1. Press the [▶]/[◀] button to change intervals step by step.
- 2. Press and hold the [▶]/[◀] button to seek to the next strongest station.

Recalling a Preset Station

A total of 7 preset positions (WB1~WB7) exists to store individual weather band stations in memory. Press [▲ 1/ [▼] button to select the desired preset weather band station to recall the stored frequency.

Scan

During listening of the weather band, press the [MENU/BAND] button to access available options.

- 1. Press the [MENU/BAND] button access the System Menu to select SCAN.
- 2. Press the [ENTER] button to start scanning available stations. Press again to stop.

Note: Only stations with acceptable reception will lock to SCAN. Scan time is approximately 10 seconds.

SiriusXM[®] Satellite Radio Operations

Only SiriusXM® brings you more of what you love to listen to, all in one place. Get over 140 channels, including commercial-free music plus the best sports, news, talk, comedy and entertainment. Welcome to the world of satellite radio. A SiriusXM Vehicle Tuner and Subscription are required. For more information, visit www.siriusxm.com

Displaying the Radio ID

Before you listen to satellite radio, you must subscribe to the service using the SiriusXM Radio ID number.

- Press [◀] or [▶] to select channel "0". The unit displays Radio ID.

Note:

- 1. The Radio ID is located on the bottom of the SiriusXM Connect Vehicle Tuner.
- 2. Please note that the SiriusXM Radio ID does not include the letters I, O, S or F.
- 3. Activate the SiriusXM Connect Vehicle Tuner using one of the two methods below:
- Online: Go to "www.siriusxm.com/activatenow".
- Phone: Call 1-866-635-2349.
- To activate SiriusXM Canada service go to www.xmradio.ca and click on "ACTIVATE RADIO" in the top or call XM customer care at 1-877-438-9677.

◆ Channel Up [▶] Down [◄] Operation

- Press the [▶] Right Arrow to advance to the next channel.
 - Press the [◀] Left Arrow to go to previous channel.
- 2. Press and hold in the [▶] Right Arrow to fast forward search channel.
 - Press and hold in the [◀] Left Arrow to fast backward search channel.

♦ Recalling a Preset Station

- Press the [▲/▼] button to enter into the Preset List.
- Press the [▲/▼] button to select the desired Preset you wish to access.
- 3. Press the **[ENTER]** button to confirm tune to that channel.

Presets

- Press and hold the [▲ / ▼] button to enter into the Manual Store Presets interface.
- Press the [▲ / ▼] button to select a preset number.
- 3. Press the **[ENTER]** button to store current channel into preset.

Go Live

- 1. Press the [MENU/BAND] button access the SiriusXM Menu.
- Press the [▲/▼] button until "Go Live" is displayed.
- 3. Press the **[ENTER]** button to go to Live signal.

Note: Press [MENU/BAND] button to exit .

♦ Category Search

Bluetooth Operation

Pairing the Bluetooth Device

- From your Bluetooth enabled device, turn the Bluetooth ON and search for Bluetooth devices.
- When a list of available Bluetooth devices appear on your Bluetooth device, select "Clarion".
- "Successful" will appear on the CMS3 display.
- 4. The unit will automatically enter the BT Audio source and you can now start streaming audio from your Bluetooth enabled device.

Note: If the mobile phone doesn't support SSP (Simple Secure Pairing) Profile, please enter the pass code of "0000".

Disconnect / Re-Connect

- 1. Press the [MENU/BAND] button to access the System Menu.
- 2. Press the [▲ / ▼] button until "BT DISCONN" or "CONNECT" is displayed.
- 3. Press the [ENTER] button to confirm the selection.

Audio Streaming Operations What is audio streaming?

Audio streaming is a technique for transferring audio data such that it can be processed as a steady and continuous stream. Users can stream music from their external audio player to their audio system wirelessly and listen to the tracks through the boat's speakers.

CAUTION

Please avoid operating your connected mobile phone while audio streaming as this may cause noise or sound choppy on the song playback. Audio streaming may or may not resume after telephone interrupt as this is dependent on mobile phone.

Search Function

- 1. Press the [MENU / BAND] access the System Menu.
- Press the [◀ / ▶] button to select "DIR SEARCH"
- Press the [▲/▼] button to select Directory / File, then press [ENTER] to confirm.
- 4. When displaying a File, press the [◀] button to display the File's corresponding Folder (return to last layer).

Repeat Feature

This function allows you to Repeat All tracks/ songs, Repeat the currently playing track/song, or to turn the Repeat feature OFF.

- 1. Press the [MENU / BAND] access the System Menu.
- Press the [▲/▼] button until "REPEAT" is displayed.
- Press the [◄/▶] button to display "ALL" or "TRACK" or "FOLDER".
- 4. Press the [ENTER] button to select that repeat option.

Shuffle Feature

This function allows you to play tracks/songs from the current album, songs or artists in a random

- 1. Press the [MENU / BAND] access the System Menu.
- Press the [▲/▼] button until "SHUFFLE" is displayed.
- Press the [◄/▶] to scroll through the Shuffle options.
 - "SHUFFLE OFF" or "SHUFFLE ON"
- 4. When the Random option you would like to use appears on the display, Press the [ENTER] button to select that Random option.

Note:

- Press [MENU/BAND] button to exit .
- After 10 seconds of no action, you will return to the play screen for the current source in use.

Play / Pause a track

that is currently playing.

Press the [NUTE] button to resume playing the track/song that has been paused.

♠ [▶] Right Arrow / [◀] Left Arrow Buttons

- Press the [▶] Right Arrow to advance to the next track/song.
 - Press the [◀] Left Arrow to go to previous track/song.
- 2. Press and hold in the [▶] Right Arrow to fast forward through the track/song.
 - Press and hold in the [◀] Left Arrow to fast backward through the track/song.

- Not all Bluetooth enabled devices will support the fast forward and fast backward function.
- Playing order will depend on BT Audio player. When [🄞] button is pressed, some Bluetooth devices will restart the current track depends on the duration of playback. During music streaming playback, "BT Audio" will be shown on the display. When BT Audio device is disconnected, "BT Disconnect" will be shown on the display. Some Bluetooth audio players may not have play/pause synchronized with this unit. Please make sure both device and main unit are in the same play/pause status in **BTAudio** mode.

ID3 Display

During music streaming playback, press [ENTER] to view the ID3 display information: ALBUM->TITLE->ARTIST...

6. TROUBLESHOOTING

GENERAL

Problem	Cause	Measure
The unit will not power on	The vessels accessory switch is not on	If the power supply is properly connected to the vessel's accessory terminal, switch the ignition key to "ACC"
No sound	Volume is set too low	Increase the volume to audible level
	Wiring is not properly connected	Correct wiring connections
The remote is not responding	The built-in internal processor is not operating properly	Press the RESET button with a ball point pen
Auto seek function can not find any	The antenna cable is not connected	Insert the antenna cable securely
stations	The signals are too weak	Select a station manually

Bluetooth

Problem	Cause	Measure
Cannot pair the Bluetooth enabled device with the	The device does not support the profiles required for the system.	Use another device to connect.
audio system.		Refer to the user manual of the device for how to enable the function.
The audio quality is poor after connection with a Bluetoothenabled device.	The Bluetooth reception is poor.	Move the device closer to the audio system or remove any obstacle between the device and the system.

SiriusXM Advisory Messages

Message	Description
CHEK TUNER	Check the SiriusXM tuner connection on the back of the unit to ensure that its correctly connected.
CHK ANTENA	Ensure the SiriusXM antenna cable is connected to the SiriusXM tuner correctly. Check the SiriusXM antenna wire for breaks or sharp bends. Replace the antenna if necessary. Press RESET located If the message remains, the antenna may have been damaged.
NO SIGNAL	The vehicle must be outside, and the antenna must have a clear view of the southern sky. The magnetic antenna must be mounted on the outside of the vehicle for the best reception.
CHAN UNSUB	This channel is not included in your SiriusXM subscription plan. Call 1-866-635-2349 to subscribe.
CH UNAVAIL	This channel is not a valid SiriusXM channel. The channel number has been entered incorrectly, or the channel was removed from the SiriusXM channel lineup
CH LOCKED	The selected channel has been locked by a mature channel has been selected. A prompt to enter the unlock code will appear.
SUBSCRIPTN UPDATED	An update to your SiriusXM subscription has been received by the SiriusXM tuner. Press any button to continue.

7. SPECIFICATIONS

FM Tuner

Frequency Range: USA 87 9 - 107 9MHz

Europe 87.5 - 108.0MHz Asia 87.5 - 108.0MHz

Australia 87.5 - 108.0MHz

Usable Sensitivity: 4µV (S/N=30dB)

Image Rejection: >45dB Stereo Separation: >25dB

AM Tuner

Frequency Range: USA 530 -1710KHz

Europe 531 - 1602KHz 531 - 1629KHz Asia Australia 531- 1629KHz

Usable Sensitivity: 40dB (S/N=20dB)

Weather Band Selection

CH 1 162 400MHz CH 2 162 425MHz CH.3 162.450MHz CH.4 162.475MHz CH.5 162.500MHz CH.6 162.525MHz CH.7 162.550MHz

Audio

Maximum Power Output: 50W x 4 Bass Control (60Hz): + 7dB Treble Control (10kHz): + 7dB Middle Control:(1kHz): + 7dB

USB

USB: 2.0 High Speed

USB Port: 1.0A **USB Voltage:** 5.0V Maximum MP3/WMA Songs: 65535 Maximum MP3/WMA Folder: 255 Maximum Songs per Folder: 65535 Maximum USB Memory Size: 32G USB Flash Drive and Hard FAT/FAT32

Drive Compatible Format:

Bluetooth

Specification: Bluetooth Version, 3.0+EDR

(Enhanced Data Rate)

Supported Profiles: A2DP (Advanced Audio

Distribution Profile) aptX (CD Quality audio bandwidth matching and reproduced) AVRCP 1.4 (Audio/Video Remote Control Profile)

SPP (Serial Port Profile) SSP (Simple Secure Pairing)

Send/Receive Sensitivity: Class 2

General

Power Supply Voltage: 12V DC (10.8 to 15.6V

allowable)

Grounding System: Negative Ground Speaker Impedance: 4-8 ohms per channel

Working temperature: -20°C ~ +55°C

Note: Specifications and design are subject to change without notice for further improvement.

Power Output:

20W × 4 RMS (4 Ω @14.4V

≤ 1% THD+N)

Signal to Noise Ratio:

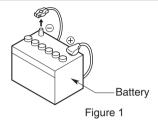

74dB (reference: LPF 1 W into 4Ω)

INSTALLATION AND WIRE CONNECTION

1. BEFORE STARTING

- 1. This set is exclusively for use in vessels with a negative ground 12 V power supply.
- 2. Read these instructions carefully.
- 3. Be sure to disconnect the battery " " terminal before starting. This is to prevent short circuits during installation. (Figure 1)

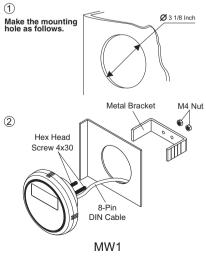

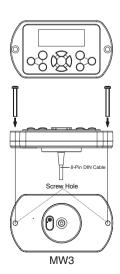

2. INSTALLATION CAUTIONS

- 1. In order to avoid any interference, do not install the tuner module or control unit in the proximity of the engine compartment.
- 2. The use of unauthorized parts can cause permanent damage to the unit.
- 3. Always check your wire connections to ensure proper installation before turning on the unit.
- 4. Consult with your nearest dealer for proper installation or if common parts need to be used. Seek assistance if modifications or drilling holes to your vessel is needed.
- 5. Do not install the unit where it will be subjected to excessive moisture, dust, dirt, foreign particles or vibration. Areas of high temperature from the engine, direct sunlight, heater or hot air should also be avoided.
- 6. Do not install the unit in a location where it will interfere with the vessel operation, or it will injure the passengers if there is a sudden or emergency stop.

3. OPTIONAL MARINE WIRED REMOTE INSTALLATION

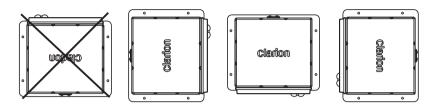

The control unit should be mounted to a dry, clean and flat surface. Ensure the rear gasket is fully sealed to the mounting surface without distorting the unit.

4. BLACK BOX INSTALLAION

1. Select an area with sufficient ventilation for the mounting of the black box in order to prevent the module from overheating. You may mount the black box in a horizontal or vertical position. If the black box is mounted in a vertical position, do not mount the module with the harness exit points directly facing up to prevent water collecting in these areas.

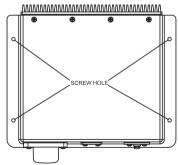

- 2. Please refer to the diagram below for the mounting screw hole positions. Always use the shortest length of screw possible.
- 3. During installation, use the 4 rubber mounting stoppers (included in the package) for the bottom of the module. This provides clearance from surface moisture and provides sufficient ventilation for the heat sink
- 4. Extension wires/cables may be needed to route the harness and cable throughout the vessel.

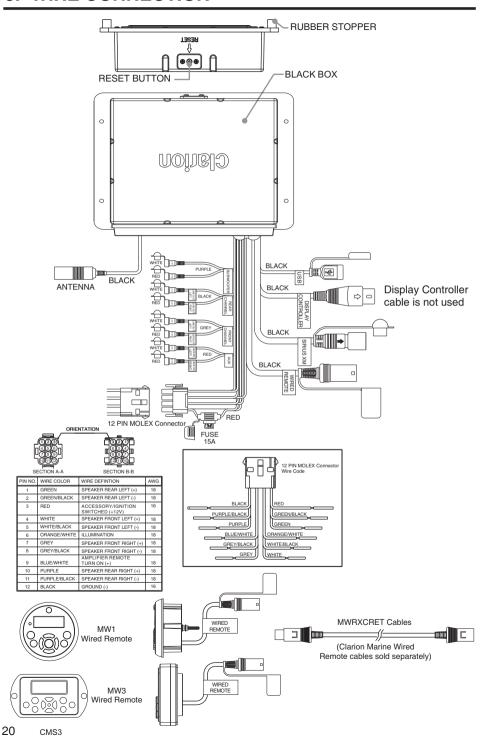

Note: Retain some slack in the harness/ cables to prevent damage to the wires. It is recommended relieve stress in all cables and harnesses.

- 5. Always read through the wiring diagram in this manual first, and follow all the wiring diagrams carefully. The connections should be secured and insulated with crimp connectors or electrical tape to ensure proper connections.
- 6. Once the wiring connections are completed, connect the negative terminal on the battery, turn the vessel accessory ON and power on the unit to check if it is operating correctly. If abnormalities occur, disconnect the battery negative terminal, recheck all wiring and try again. Please refer to the troubleshooting section for assistance.
