## How to Use

### 1. Charging

- 1) Connect the charging port with any USB charging adapter or active computer USB port.
- 2) Charging will start automatically with the charging indicator turning red.
- 3) The speaker is fully charged when the charging indicator turns off.

#### Note:

- Make sure the battery is fully charged before putting the speaker away for storage.
- Charge the speaker at least once every 3 months when not using for a long time.
- There will be a low battery alarm every 3min, and the speaker will turn off 10min later.

### 2. Bluetooth Connection

- 1) Press and hold the Power Button to turn on the unit with a beep. For the first time, the speaker enters the pairing mode automatically with the Source indicator flashing white quickly.
- 2) Make sure the speaker and your Bluetooth® device are next to each other (within 1m / 3ft).
- 3) Activate the Bluetooth® function on your phone or tablet, and search for the nearby Bluetooth® connections. Find “VAVA VOOM 28” in the search results. Tap on the name to connect. Once connected, the white LED will remain on.

#### Note:

- Make sure the battery is fully charged before putting the speaker away for storage.
- Charge the speaker at least once every 3 months when not using for a long time.
- There will be a low battery alarm every 3min, and the speaker will turn off 10min later.

### 3. Smart Voice Control

- 1) Go to App Store or Google Play, search for “Amazon Alexa”, tap to install.
- 2) Register your account, and then login.
- 3) Go to Bluetooth on your mobile, search and pair with this speaker.
- 4) Open the Alexa app, tap  -> Add Device -> Headphones, tap on VAVA VOOM 28, and Add.
- 5) Press the Power Button on the speaker or Voice Control Button on your mobile to enable and use Alexa.

### 4. AUX Connection

- 1) Connect the 3.5mm AUX Input port to a sound source device.
- 2) Press and hold the Power Button to turn on the unit with a beep and the Source indicator lighting up red.

### Button Control

| Function               | Operation  |
|------------------------|--|
| Power On / Off         | Press and hold the Power Button until a beep is heard.   |
| Volume + *             | Press the Volume + Button                                |
| Next Track             | Press and hold the Volume + Button in the Bluetooth mode |
| Volume -               | Press the Volume - Button                                |
| Previous Track         | Press and hold the Volume - Button in the Bluetooth mode |
| Play / Pause           | Press the Play / Pause Button                            |
| Mute (AUX Mode)        | Press the Play / Pause Button to mute / unmute           |
| Answer / Hang up Calls | Press Play / Pause Button                                |

## FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
