

# CLR-C1-360PIR/RF-CPIR-433

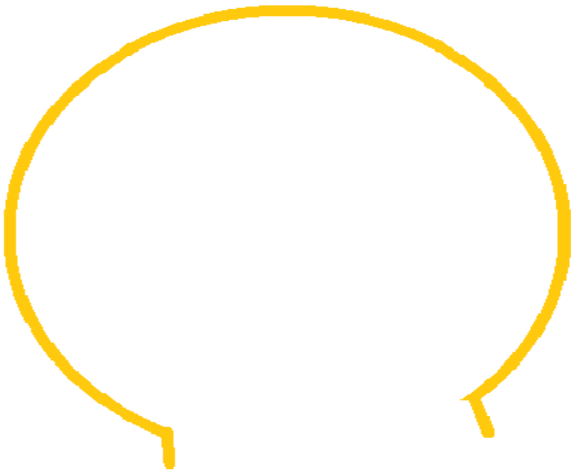

## Antenna info

### Overview:

#### Antenna description:

- The antenna is a piece of wire and used in a monopole arrangement. Antenna is permanently attached to the unit. The antenna does not use reverse polarity connector.

### Antenna Drawing:

### Antenna design:

Antenna gain  $G_R$ : -7.5dBi

Power rated of the radio	13dBm
Tune-up tolerance	0.1dB
Antenna Gain	-7.7dBi

Field Strength = rated power + tune-up tolerance + Antenna gain
