Periodic Operation Attestation

We, the equipment manufacturer and/or responsible party confirm that the equipment is not a radio control device or toy, and is not capable of generating continuous transmissions, voice, or video transmissions. Data shall be sent only along with a control signal.

We attest that we have verified and documented that periodic transmissions at regular predetermined intervals do not exist, except where regulatory requirements allow polling or supervision transmissions, including data, to determine system integrity.

Please see the detail in the operational description.

Yours Sincerely

A handwritten signature in black ink, appearing to read "Jim Schweitzer", written over a light blue background.

Jim Schweitzer
