

A photograph of a Raspberry Pi 3 Model B+ circuit board. The board is green with gold-plated pins along the edges. It features a central Broadcom BCM2837 processor, an ELPIDA memory chip, and various other components like capacitors and resistors. The board is labeled with 'Raspberry Pi' and 'Model B+'. It has four yellow mounting holes and a black USB Type-C port. The board is shown from a top-down perspective, lying flat on a light-colored surface.
