

INVISIONEER

TV Adapter
Quick Start Guide

Setting Up Your Adapter

1. Attach the InVisioneer adapter to an open HDMI connector on your TV using the supplied cable.

Adapter Rear Panel

2. Power on your TV.

Please note: It may be necessary for you to change your TV source to the selected HDMI connection.

3. Turn on the Adapter using the provided USB power supply and cable.

Power Supply

3. Follow the instructions on the TV screen.
Your iPad will be used to configure Wi-Fi settings.
4. Once you see the blue circle on your TV, start the InVisioneer app on your iPad.
5. To learn more, tap the "Welcome" video on Home.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

FCC Radiation Exposure Statement

The antennas used for this transmitter must be in stalled to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.
