Federal Communication Commission Attn: Laboratory Division  
7435 Oakland Mills Road  
Columbia, MD 21046

**RE:      *Attestation Letter for Equipment Authorization with FCC ID 2ABD7-5363***

To Whom This May Concern:

VIOLET L.L.C. and its affiliates (collectively, "VIOLET") hereby confirm that our product with the FCC ID 2ABD7-5363 (the "Device") is eligible for placement of the FCC mark on the inside of the Device that's user accessible (i.e., the battery compartment and not external) by meeting all of the following conditions as outlined in KDB 748748:

- The Device is a handheld product.
- The FCC mark (which includes the FCC ID and model number) (the "Mark") will be placed in the battery compartment of the Device, but the batteries themselves will not be installed when marketing the Device.
- The Mark will not be placed on a removable portion of the battery compartment of the Device.
- The battery compartment for the Device does not require any special tools for access.
- The user documentation for the Device will include a statement that directs the customer where to find the Mark.
- The Mark will meet all the other general labeling requirements.

VIOLET appreciates the FCC's understanding and support of this position. Of course, if there are any objections, please contact me to discuss.

Best regards,

Terri Egan, President  
VIOLET L.L.C.
