

<p>Yeelight Smart LED Bulb User Manual Please read this manual carefully before using the product.</p> 	<p>Installation Steps</p> <p>01 Install the Light Bulb Install the light bulb and turn on the power.</p>  <p>Note: 1. Make sure that the power is off when installing, removing, or exchanging the light bulb. 2. Do not use this product with a dimmer (e.g. a dim lamp with a dimmer switch) to avoid damaging the product. 3. Do not use this product in a damp environment. 4. Do not use the light bulb in a narrow and ill-ventilated space as it may cause weak signals or heat dissipation issues.</p>	<p>02 Download the App Search Yeelight in app stores or scan the QR code below to download the Yeelight App.</p>  <p>03 Use the App Open the app and operate it in accordance with the instructions provided in the app. * Make sure that the Wi-Fi network is available and is able to access the Internet properly.</p> <p>How to Restore to Factory Settings Use the light switch to turn the light bulb on and off the times (n) for two seconds, off for two seconds. For the light bulb (turnable white version), it will be in breathing mode. After 5 seconds, it will automatically reset itself.</p>	<p>List of Functional Faults</p> <table border="1"> <tr> <td>Functional Faults</td> <td>Light bulb is not turned on when connected to power</td> </tr> <tr> <td></td> <td>Light bulb flicks abnormally</td> </tr> <tr> <td></td> <td>Color mixing</td> </tr> <tr> <td></td> <td>Light bulb is not able to connect to the app under right internet connection</td> </tr> <tr> <td></td> <td>A malfunction that affects use or safety due to a connected product (due to heat from those caused by a user)</td> </tr> </table> <p>Warning</p> <ol style="list-style-type: none"> Before using this product, please make sure that your voltage is appropriate for the working voltage of this product. Using this product with a voltage other than the one specified may damage the product and cause safety hazards. Do not disassemble this product, as the light diodes can cause damage to the eyes. 	Functional Faults	Light bulb is not turned on when connected to power		Light bulb flicks abnormally		Color mixing		Light bulb is not able to connect to the app under right internet connection		A malfunction that affects use or safety due to a connected product (due to heat from those caused by a user)	<ol style="list-style-type: none"> The light bulb will heat up when working. Do not use it in a confined space for an extended period of time. Ensure sufficient ventilation for the light bulb to allow for heat dissipation. The optical radiation of this LED light product complies with the "Requirements and Requirements" of IEC 62471:2006. For indoor use only. Disconnect power before installation to prevent risk of electronic shock. Use in dry locations only. The light source of this product is irreplaceable light (LED). This device is neither intended for use with emergency use nor intended for emergency lighting. Only use the control provided with or specified by these instructions to control this lamp. Its lamp will not operate properly when connected to a standard (non-dimmable) dimmer or dimming control. For lamps with a weight significantly higher than the one specified for which they are a replacement, attention should be drawn to the fact that the increased weight may reduce the mechanical stability of certain luminaires and/or suspension and may impact contact fitting and lamp retention.
Functional Faults	Light bulb is not turned on when connected to power													
	Light bulb flicks abnormally													
	Color mixing													
	Light bulb is not able to connect to the app under right internet connection													
	A malfunction that affects use or safety due to a connected product (due to heat from those caused by a user)
