Dear Examiner,

This is to request a Class II Permissive change for FCC ID: 2ABGH-R500L5 originally granted on 11/19/2021.

The change under this application is to only enable Qualcomm Smart Transmit feature to control and manage transmitting power in real time and to ensure at all times the time averaged RF exposure is in compliance with the FCC requirement. The change will not change other RF characteristics.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,
