# Important Safety Instructions

## CAUTION

RISK OF ELECTRIC SHOCK  
DO NOT OPEN

**CAUTION:** TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This 'bolt of lightning' indicates uninsulated material within your unit which may cause an electric shock. For the safety of everyone in your household, please do not remove product covering.

The 'exclamation mark' calls attention to features within the enclosed literature to prevent operating and maintenance problems.

This equipment is a Class II or double insulated electrical appliance. It has been designed in such a way that it does not require a safety connection to electrical earth.

**WARNING:** To reduce the risk of fire or electric shock, this apparatus should not be exposed to rain / moisture or placed in the vicinity of objects filled with liquids (such as vases).

**CAUTION:** To prevent electric shock, fully insert the plug. For regions with polarized plugs: Please match wide blade to wide slot.

## Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this apparatus near water.
6. Clean only with a dry cloth.
7. Do not block any of the ventilation

openings. Install in accordance with the manufacturer's instructions.

8. Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles and the point where they exit from the apparatus.
11. Only use attachments/accessories specified by the manufacturer.
12. Use only with a cart, stand, tripod, bracket or table specified by the manufacturer or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus to avoid injury from tip-over.
13. Unplug this apparatus during lightning storms or when unused for long periods of time.
14. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as if the power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, or when the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
15. Apparatus should not be exposed to dripping or splashing, and objects filled with liquids, such as vases, should not be placed on the apparatus.

# Important Safety Instructions

- An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits. When installing an outside antenna system, extreme care should be taken to eliminate touching power lines or circuits as contact might be fatal.
- Do not overload wall outlets, extension cords, or integral convenience receptacles as this can result in a risk of fire or electric shock.
- Never push objects of any kind into this product through openings as they may touch short-out parts or dangerous voltage points that could result in a fire or electric shock. Never spill liquid of any kind on the product.
- If an outside antenna is connected to the television equipment, be sure the antenna system is grounded so as to provide some protection against voltage surges and built up static charges. Section 810 of the National Electrical Code provides information with respect to proper grounding of the mast and supporting structure, grounding of the lead-in wire to an antenna discharge unit, size of grounding conductors, location of antenna discharge unit, connection to grounding electrodes, and requirements for the grounding electrodes.

- NOTE TO CABLE/TV INSTALLER:** This reminder is provided to call the CATV system installer's attention to Article 820-40 of the National Electric Code (U.S.A.). The code provides guidelines for proper grounding and, in particular, specifies that the cable ground shall be connected to the grounding system of the building, as close to the point of the cable entry as practical.
- When replacement parts are required, be sure the service technician uses replacement parts specified by the manufacturer or those that have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock or other hazards.
- Upon completion of any service or repairs to this unit, ask the service technician to perform safety checks to determine that the unit is in proper operating condition.
- When you connect the product to other equipment, turn off the power and unplug from the wall outlet. Failure to do so may cause an electric shock and serious personal injury. Read the owner's manual of the other equipment carefully and follow the instructions when making any connections.
- Sudden high volume may cause hearing or speaker damage. When you use headphones (if the unit is equipped with a headphone jack), keep the volume at a moderate level. If you use headphones continuously with high volume, you may suffer hearing damage.
- Any severe physical impact on the product may cause certain components to fall out of place within and break, which may cause fire or electric shock. In such event, do not operate the product. Contact the manufacturer for support.
- In case of product malfunction or unusual events such as electrical burning smell, smoke, or loss of content signals on built-in Soundbar due to internal overheating,

# Safety Warnings

- immediately turn off and unplug the power and contact the manufacturer.
27. Do not mount this product near a motor or transformer where strong magnetism is generated.
  28. Do not allow the product to output distorted sound for extended periods of time. This may cause speaker overheating and fire.
  29. The socket-outlet must be installed near the unit and easily accessible.
  30. The mains plug is used as the disconnect and shall remain readily operable.
  31. Batteries (battery pack or installed batteries) should not be exposed to excessive heat such as direct sunlight, fire or other heat sources.

## CONDENSATION

Moisture will form in the operating section of the unit if the unit is brought from cool surroundings into a warm room or if the temperature of the room rises suddenly. When this happens the unit's performance will be impaired. To prevent this, let the unit stand in its new surroundings for about an hour before switching on, or make sure the room temperature rises gradually.

Condensation may also form during the summer if the unit is exposed to the breeze from an air conditioner. In such cases, change the location of the unit.

## HOW TO HANDLE THE LCD PANEL

- Do not press hard or jolt the LCD panel. It may cause the LCD panel glass to break and injury may occur.
- If the LCD panel is broken, make absolutely sure you do not touch the liquid in the panel. This may cause skin inflammation.
- If the liquid gets in your mouth, immediately rinse and consult with your doctor. Also, if the liquid gets in your eyes or touches your skin, consult your doctor after rinsing for at least 15 minutes in clean water.

**Possible Adverse Effects on LCD Panel:** If a fixed (non-moving) pattern remains on the LCD panel for long periods of time, the image can become permanently engrained and cause subtle but permanent ghost images. This type of damage is NOT COVERED BY YOUR WARRANTY. Never leave your LCD panel on for long periods of time while it is displaying the following formats or images:

- Fixed images, such as stock tickers, video game patterns, TV station logos and websites.
- Special formats that do not use the entire screen. For example, viewing letterbox style (16:9) media on a normal (4:3) display (black bars at top and bottom of screen); or viewing normal style (4:3) media on a wide screen (16:9) display (black bars on left and right sides of screen).

The following symptoms are not signs of malfunction but technical limitation. Therefore we disclaim any responsibility for these symptoms.

- LCD panels are manufactured using an extremely high level of precision technology, however sometimes parts of the screen may be missing picture elements or have luminous spots. This is not a sign of a malfunction.
- Do not install the LCD panel near electronic equipment that produces electromagnetic waves. Some equipment placed too close to LCD may cause interference.
- Effect on infrared devices – there may be interference while using infrared devices such as infrared cordless headphones.

## POWER SOURCE

**NOTE:** Please make sure to insert the cord securely at both the LED TV and the wall outlet.

# Safety Warnings

## WARNING:

- Do not connect this unit to the power using any device other than the supplied 12V cigarette adapter. Or else it may cause fire, electric shock, or damage.
- Do not use with a voltage other than the power voltage specified. Or else it may cause fire, electric shock, or damage.

## CAUTION:

- When the unit is not being used for extended periods of time (e.g., away on a trip), in the interest of safety, be sure to unplug it from the outlet.
- Do not plug/unplug the 12V cigarette adapter (included) or AC power adapter (not included) when your hands are wet. Doing this may cause electric shock.
- If you need to replace the supplied 12V cigarette adapter or purchase a AC power adapter (not included), the specified one is recommended. Contact your dealer to purchase a factory replacement.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**WARNING:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment under FCC Rules.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

## Compliance

---

### FCC Statement

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

## Safety Precautions

---

**WARNING:** Never place a television set in an unstable location. A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the television set.
- Only using furniture that can safely support the television set.
- Ensuring the television set is not overhanging the edge of the supporting furniture.
- Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support.

# Safety Warnings

English

- Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture.
- Educating children about the dangers of climbing on furniture to reach the television set or its controls.

If your existing television set is being retained and relocated, the same considerations as above should be applied.

The unit emits heat when in operation. Do not place any covers or blankets on the unit, this may cause overheating. Do not block ventilation holes, or set up near radiators. Do not place in direct sunlight. When placing on a shelf, leave 4 inches (10 cm) free space around the entire unit.

## Notes when mounting the LED TV on the wall

If the unit is to be mounted on the wall, contact the retailer where you purchased the LED TV for advice, and have the equipment professionally installed. Incomplete or improper installation may cause injury to you and/or damage to the LED TV.

### VESA MOUNTING PATTERN

Model	Width (mm)	Height (mm)	Screw Size	Screw Quantity
FDHK32V1A	400	200	M 6*10mm	4

### FURRION MOUNTING PATTERN

Model	Width (mm)	Height (mm)	Screw Size	Screw Quantity
FDHK32V1A	160	125	M 6*10mm	4

### WARNING:

- Do not use this TV with wall mounts that allow the TV to tilt vertically. Vertical tilting wall mounts may cause structural damage to the TV.
- Use ONLY fixed or horizontal swiveling wall mounts with this TV.

# Function Overview

## Input & Output ports

Item	Input/Output	Function
①	<b>AM/FM ANTENNA</b>	Connect to the <b>AM/FM</b> antenna.
②	<b>IR EXT</b>	Connect to the <b>IR EXT</b> port of another Furrion Sense™ TV.
③	<b>ZONE 2 OUT</b>	Connect to <b>Zone 2</b> Speaker.
④	<b>L-AUDIO IN-R</b>	Connect to the <b>COMPOSITE AUDIO OUT</b> ports of a DVD Player, Cable Box or other compatible devices.
⑤	<b>Y VIDEO IN</b>	Connect to the <b>COMPONENT VIDEO OUT</b> ports of a DVD Player, Cable Box or other compatible devices.
	<b>Pb</b>	
	<b>Pr</b>	
⑥	<b>L-AUDIO OUT-R</b>	Connect to the <b>AUDIO IN</b> ports of an audio device.
⑦	<b>HDMI 1 (ARC) IN</b>	Connect to the <b>HDMI OUT</b> port of a DVD Player, Games Console, Cable Box or other HDMI device. • ARC (Audio Return Channel) When connected with a HDMI 1.4 cable to an ARC compatible audio system, the TV links with the device to give extra audio functionality.
	<b>HDMI 2 IN</b>	
⑧	<b>RF IN</b>	Connect to <b>TV ANTENNA, CABLE, or CABLE BOX.</b>
⑨	<b>OPTICAL OUT</b>	Connect to the <b>OPTICAL AUDIO IN</b> port of an audio device.
⑩	<b>USB (5V/1000mA)</b>	Rear USB Port: Provide power supply only for Google dongle / Roku etc.
⑪	<b>AUX</b>	Front Aux In port: Connect to the 3.5mm audio output socket on an auxiliary device.
⑫	<b>USB</b>	Front USB port: Connect a USB storage device.
⑬	<b>HDMI</b>	Front HDMI In port: Connect to the HDMI output socket on an AV device.

\* The configuration of the connection ports may vary from model to model.

# Function Overview

## Front Panel

Item	Description
①	<b>LCD screen</b> Display the audio source, mode or status.
②	 1. In radio mode, press and hold this button to store the current frequency as the preset station No.1. Press it briefly again to recall the preset station 1. 2. In BT/USB mode, press this button to play or pause the current playback.
③	 1. In radio mode, press and hold this button to store the current frequency as the preset station No.2. Press it briefly again to recall the preset station 2. 2. In BT/USB mode, press this button to stop the playback. 3. In non-radio mode, press and hold this button once or more to select the alarm source input AL AUX, AL BT, AL TV or AL RADIO. The corresponding source will display on LCD screen.

Item	Description
④	 1. In radio mode, press and hold this button to store the current frequency as the preset station No.3. Press it briefly again to recall the preset station 3. 2. In BT mode for an incoming call, press this button to answer. 3. In BT mode, press this button directly to dial out the last called number.
⑤	<b>POWER</b> Press it to turn On/Off the whole unit.
⑥	<b>AM FM</b> 1. Press it to select AM FM as a source when the TV is off : press it once or more to select AM1, AM2, FM1, FM2 or FM3. 2. Press and hold it once or more to select the radio region USA1, USA2, EUROPE or AUSTRALIA.
⑦	<b>AUX</b> Press it to select AUX as the source when the TV is off.

# Function Overview

Item	Description

50	<b>MENU</b>	Enter the main menu.

# About Your TV

## Features

### **TV with integrated Soundbar system -**

You can operate the TV from the sources of HDMI, DTV/ATV, USB (audio & pictures only) or CVBS with the decoded audio being present on the build-in speakers (stereo); You can enjoy the audio sources of AM/FM, Bluetooth or Line-in even when the TV screen is turned off.

### **Speaker drivers mounted with a suspension system and facing towards the user -**

This will reduce vibrations / acoustic feedback to ensure the high quality sound.

### **Front-facing control buttons and LCD on the bottom of the TV panel -**

It allows to press the keys easily from the front for basic operation. The LCD displays the source mode and basic information

**Front USB in/ HDMI in/ Aux in port -** It allows to connect with an external USB device / AV device / Auxiliary device from the front of the TV.

## Power Source

### **NOTE:**

- Please make sure to insert the cord securely at both the LED TV and the wall outlet.

### **WARNING:**

- DO NOT CONNECT THIS UNIT TO THE POWER USING ANY DEVICE OTHER THAN THE SUPPLIED 12V CIGARETTE ADAPTER. DOING SO MAY CAUSE FIRE, ELECTRIC SHOCK, OR DAMAGE.
- DO NOT USE WITH A VOLTAGE OTHER THAN THE POWER VOLTAGE SPECIFIED. DOING SO MAY CAUSE FIRE, ELECTRIC SHOCK, OR DAMAGE.

### **CAUTION:**

- WHEN THE UNIT IS NOT BEING USED FOR EXTENDED PERIODS OF TIME (E.G., AWAY ON A TRIP), IN THE INTEREST OF SAFETY, BE SURE TO UNPLUG IT FROM THE OUTLET.
- DO NOT PLUG/UNPLUG THE 12V CIGARETTE ADAPTER (INCLUDED) OR AC POWER ADAPTER (EXCLUDED) WHEN YOUR HANDS ARE WET. DOING SO MAY CAUSE ELECTRIC SHOCK.
- IF YOU NEED TO REPLACE THE SUPPLIED 12V CIGARETTE ADAPTER OR AC POWER ADAPTER (EXCLUDED), THE SPECIFIED ONE IS RECOMMENDED. CONTACT YOUR DEALER TO PURCHASE A FACTORY REPLACEMENT.

# Before Operation

## What's in the box

Thanks for purchasing this Furrion Sense™ HD DLED TV. This manual will help you set up and begin using your TV.

First, check the contents of your box with the parts checklist below:

- TV
- Remote Control
- AAA battery × 2
- Wall-mount screws
- Quick Start Guide
- Warranty Leaflet
- Warning Card

Now you can get started!

## Prepare your Remote Control

### BATTERY INSTALLATION

1. Open battery compartment cover.

2. Install two AAA batteries.

3. Close the cover of the battery compartment.

**NOTE:** Use two “AAA” size batteries. The batteries may last approximately one year depending on usage. For best performance, it is recommended the batteries should be replaced on a yearly basis, or when the remote operation becomes erratic. Do not mix old and new batteries or different types.

### BATTERY PRECAUTIONS

These precautions should be followed when using batteries in this device:

- Use only the size and type of batteries specified.
- Be sure to follow the correct polarity when installing the batteries as indicated in the battery compartment. Reversed batteries may cause damage to the device.
- Do not mix different types of batteries together (e.g. Alkaline and Carbon-zinc) or old batteries with fresh ones.
- If the device is not to be used for a long period of time, remove the batteries to prevent damage or injury from possible battery leakage.
- Do not try to recharge batteries not intended to be recharged; they can overheat and rupture. (Follow battery manufacturer's directions.)
- Please use caution when inserting batteries to avoid battery damage. If the spring terminal in the remote control remains in contact with a side of a damaged battery it can cause a short circuit. Never use damaged batteries as they can become very hot and are dangerous.

# Getting Started

The **Setup Wizard** window appears the first time you turned on the TV. It will assist you to configure the TV and scan for available channels.

**IMPORTANT:** Make sure the antenna is correctly connected with the cables of TV system.

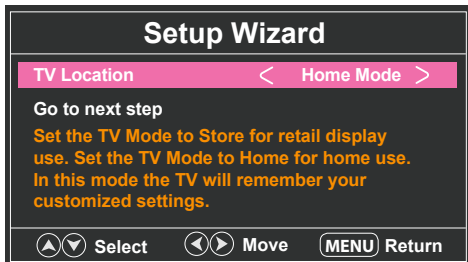

1. Press the button  on the remote control (or press **POWER** button at the bottom of TV front panel) to turn on the TV. The **Setup Wizard** window appears on the screen.

**NOTE:** It may take a few seconds before the **Setup Wizard** window appears on the screen.

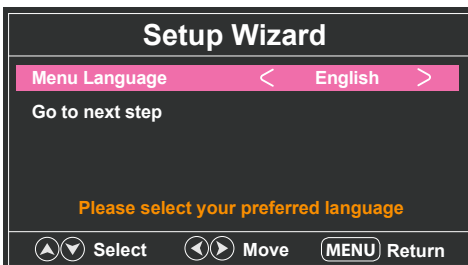

2. Use **▲** or **▼** on the remote control to highlight **TV Location**, then press **◀** or **▶** to select **Home Mode** or **Store Mode**.

**NOTE:** When you select **Store Mode** it will remind you that **Store Mode** consumes more energy. Select **Yes** to enter or **No** to cancel.

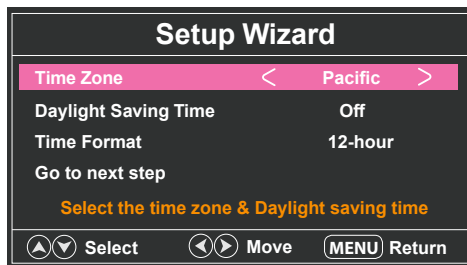

Press **▲** or **▼** to highlight **Go to next step**, press **OK** or **▶** to go to the next step.

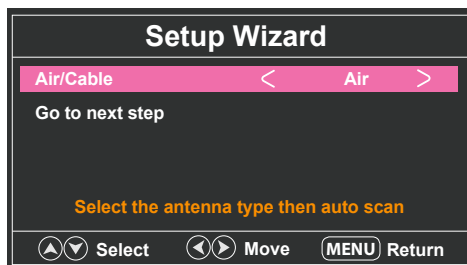

3. Use **▲** or **▼** on the remote control to highlight **Menu Language**, then press **◀** or **▶** to select the desired language. Press **▲** or **▼** to highlight **Go to next step**, press **OK** or **▶** to go to the next step.
