## Request for Class II Permissive Change

Regarding: FCC ID: 2ABH3-FSB2N25M

Date: 10/20/2021

To: Federal Communication Commission  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046

Please be notified that we, the undersigned, (*Furrion Ltd.*) declare that the reasons for this Class II permissive change are as below:

Based on original report, it was valid for model FSBN25M-BL (Furrion 12V 4 zone 2.1 soundbar) and for model FSB2N25MC-BL (Furrion 12V 2 zone 2.1 soundbar). In this update, only for the FSB2N25MC-BL an alternative audio amplifier IC OB6220 or CS3818 is to be added, which are pin to pin replacement. The electrical circuit design, layout, internal wiring and functions were identical for FSBN25M-BL and FSB2N25MC-BL models, with only difference on the FSB2N25MC-BL model is the reduction of zone outputs is reduced from 4 to 2, the optical input, the subwoofer external output and the 24C02 data memory were removed and no RF module was changed.

Sincerely,

Print Name: Thomas Wernisch

Title: Director-Engineering & Quality

Signature:

A handwritten signature in blue ink, appearing to read 'T. Wernisch', is written over a circular blue ink stamp. The stamp contains the text 'FURRION LIMITED' around the perimeter and a small star symbol at the bottom.
