TRUE WIRELESS EARBUDS  
WITH WIRELESS CHARGING CASE

QUICK START GUIDE

FCC ID: 2ABHA0081

70mm

GETTING STARTED

- ① Micro USB charging port
- ② Charging Case LED indicators
- ③ Charging Case Power Button (For checking power only)
- ④ Left earbud LED indicator
- ⑤ Left control button
- ⑥ Right earbud LED indicator
- ⑦ Right control button
- ⑧ Wireless receive area
- ⑨ Right microphone
- ⑩ Left microphone
- ⑪ Wireless charging area
- ⑫ Wireless charging LED indicator

CHARGING YOUR CASE

- Charge the charging case, with the included micro USB cable for 2 hours. The LED indicator will flash red during charging and turned solid light after fully charged
  - Charge the charging case with wireless, place the case on the wireless charger for charging. The LED indicator will flash red during charging and turned solid light after fully charged
- Do not charge longer than suggested time. Do not charge overnight.*

CHARGING YOUR EARBUDS

- Please remove the insulating trip before charging earbuds.
- Place Right and Left Earbuds in charging case
- Charging case LED indicator (2) will illuminate Blue and the earbud LED indicators (4, 6) will illuminate Red, indicating that the earbuds are charging properly. When Earbuds LEDs (4, 6) turns off, earbud batteries are fully charged.
- Charging mobile phones and other electronic devices with wireless output.
- Using the charging cable to connect the charging case and AC adapter first. To use the wireless charging mode, the mobile device needs to be a Qi-enabled device. If necessary, enable wireless charging in the settings of your mobile device. Next simply stick your device to the wireless charging area, the wireless charging LED will light green to indicate the charging start.

MONO MODE  
(SINGLE EARBUD USE)

- Remove earbud from charging case
- Once earbud is powered on, it will automatically proceed to PAIRING

STEREO MODE  
(DUAL EARBUD USE)

- Remove both earbuds from charging case and close each other
- Earbuds will automatically link together after a few seconds, and earbuds will have a tone
- One earbuds will flash red and blue, another earbuds will turn off LED indicator.
- Once Earbuds are linked together you may proceed to pairing with your mobile device.

Note: If you attempt to pair before the earbuds have paired to each other, the earbuds will go into single earbud use not both. In this case, restart the process (Please clear the connecting record of device first if it has paired record). Once they are paired successfully, the indicator of earbuds will be turned off.

Front

PAIRING

- Enable Bluetooth search mode on your mobile device and search for pairing name "TWS Auto-Pair Earbuds" and select it on your mobile phone. Once the earbuds are successfully paired, a notification will sound.
- Now you can enjoy your true wireless Bluetooth Earbuds.

\*Note: Once earbuds have been initially paired successfully with your mobile device, they will automatically pair the next time they are powered on.

OPERATING BLUETOOTH EARBUDS

Model: SL365  
Item No.: 7197-27  
Capacity(Cradle): 350mAh / 3.7V (1.295Wh)  
Capacity(Earbuds): 50mAh / 3.7V (0.185Wh)  
Input of earbuds: DC 5V / 60mA  
Input of Cradle: DC 5V / 500mA (micro USB)  
DC 5V / 300mA (wireless)  
Wireless output: DC 5V/800mA

Function	Operation
Power On	Press (5) or (7) for 3 seconds or remove the earbuds from charging case
Power Off	Press (5) or (7) for 5 seconds or place the earbuds in the charging case

Link Mode	Flashing Blue + Red
Paired Successfully	Turn off
Two earbuds paired successfully each other	One earbuds will flash red and blue, another earbuds will turn off LED indicator
Power Off	LED Off

Earbuds in Cradle	LED indications (2) & (12)
Charging	Flash Red
Fully Charged	Solid Red
Wireless Charging	Green

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning:  
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.  
Note: This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Troubleshooting

Problem	Reason	Solution
One earbuds is working but no sound in double earbuds use	Two earbuds has not paired successfully each other before paired phone	Clear the connecting record of device and follow the instruction to repair again
No sound after pairing	Incorrect pairing	Try pairing process again
No indicator during charging	Earbuds positioned into cradle incorrectly	Readjust earbuds in cradle until indicator glows
Automatic shut down	Low battery	Charge earbuds and
Noise, or interruption	Earbuds are too far away from device	Move device closer to earbuds
Can't charge your mobile phone	Not using cable to connect the charging case and AC adapter.	Using the charging cable to connect the charging case and AC adapter before charging.
