

Owner's Manual

PLEASE READ BEFORE OPERATING THIS EQUIPMENT.

FCC INFORMATION:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 Of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference m a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures :

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC WARNING:
This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. Modifications not authorized by the manufacturer may void users authority to operate this device.

FCC Statement
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by party responsible for compliance could void the user's authority to operate the equipment.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

POWER SOURCE

Battery Recharge
The unit has a built in DC 3.7V, Lithium-ion rechargeable battery, which recharges as follow:

1. Connect the unit to the computer or any USB charger by the supplied USB cable as:
Inset the small plug from the supplied USB cable to the Micro USB Port on the unit, insert the other plug to the USB Port on the Personal Computer or any USB Charger having DC 5V, 500mA (or more than 500mA) output.
2. During charging, the red indicator on the unit will turn on. When finished, it will turn off.

Notes:
Your battery will last longer if you following these simple guidelines for charging and storing.

A. For charging first time, charge it at least 10 hours.

B. Recharge and store the unit within the temperature range of 5°C~35°C (40°F~95°F).

C. Do not over charge (longer than 24 hours). Excessive charging or discharging may shorten the battery's life.

D. Battery life naturally shortens slowly over time.

E. During charging, you can play the music at the same time.

F. The rechargeable battery incorporated in this product is not user replaceable.
