

Guangzhou Goelectron Science & Technology Company Limited

WIFI CHANNEL 12 AND CHANNEL 13 DISABLE DECLARATION LETTER

We, Guangzhou Goelectron Science & Technology Company Limited, declare that the communication module, Model: GEBW127XA, (FCC ID: 2ABNA-G01 & IC: 11648A-G01) doesn't have ad hoc mode function on "non-US/Canada frequencies". In addition, the frequency selection frequency feature is disabled by firmware for the module marketed in US and Canada. For WiFi function of the module, only channel 1-11, frequency 2412 – 2462MHz is used in US and Canada and no country code selection.

If you have any question or comment regarding this matter, please feel free to ask us.

Sincerely yours
