**RE: Confidentiality Request for Certain Exhibits to Equipment Authorization
Application for FCC ID 2ABO9-0725 (“Application”)**

To Whom It May Concern:

As further set forth below, Thistle L.L.C. (“**Thistle**”) and its affiliates hereby requests long-term and short-term confidentiality for the specified exhibits to its Application pursuant to Sections 0.457 and 0.459 of the Commission’s rules.

A. Long-term Confidentiality

Thistle requests that the Commission, in perpetuity, protect as confidential, and withhold from public disclosure, the following exhibits:

- Schematics;
- Operational Description; and
- Block diagram.

The above-mentioned exhibits contain competitively sensitive technical and design information about the products to which the Application relates (“**Subject Products**”). This information, if made publicly available, would allow our competitors to study and copy proprietary aspects of the Subject Products, thereby diluting the strengths that distinguish the Subject Products from competitor products. For this reason, such information is not normally released to anyone outside of Thistle before or after product launch, other than to third parties who have agreed to protect such information as confidential.

B. Short-term Confidentiality

In addition, Thistle requests that the Commission, for 180 days from the date of the equipment authorization grant, protect as confidential, and withhold from public disclosure, the following exhibits:

- Internal Photos;
- External Photos;
- Antenna Photos
- Test Setup Photos; and
- User Guide.

The above-mentioned exhibits contain information about the feature set of the Subject Products, which Thistle believes sets the Subject Products uniquely apart from

competitor products. Since Thistle has not announced or marketed the Subject Products, this information remains unknown to the public and competitors alike. If the information in the above-mentioned exhibits were to become publicly available prior to announcement or commencement of marketing, then the new feature set of the Subject Products could be perceived by end users as stale when announced by Thistle and Thistle's time-to-market advantage relative to competitors would be harmed.

Thank you for your assistance in this matter. Please direct any questions relating to this confidentiality request to my attention

Sincerely

A handwritten signature in black ink, appearing to read "Corey Pankowski". The signature is fluid and cursive, with the first name "Corey" and last name "Pankowski" clearly legible.
