RE: Request For Dismissal - FCC ID 2ABOSSKYSLIM

We hereby request the dismissal for FCC ID 2ABOSSKYSLIM - The model in the inquiry/complaint (Sky Slim) from 2014 was NEVER produced, it went only to registration but it was not produced nor imported for sale in any way; we decided after some early testing to abort that specific project due to budget & marketing priorities.

The model in the inquiry/complaint (Sky Slim) from 2014 was NEVER produced, it went only to registration but it was not produced nor sale in any way; we decided after some early testing to abort that specific project due to budget & marketing priorities.

Also, be aware that since that time we had registered many models following all FCC guidelines and all devices went thru relevant testing as per requested protocol by FCC/OET.

Please, consider this letter as a formal request to cancel the "Deferred Status" - our technical team is trying to proceed with new equipment registration and at this time everything is being delayed by the deferred status on the system. Please confirm ASAP that we can proceed with relevant new registrations.

Thank you in advance for your assistance.

Best Regards,

Marcelo Krikler
