## 1.1 Artwork

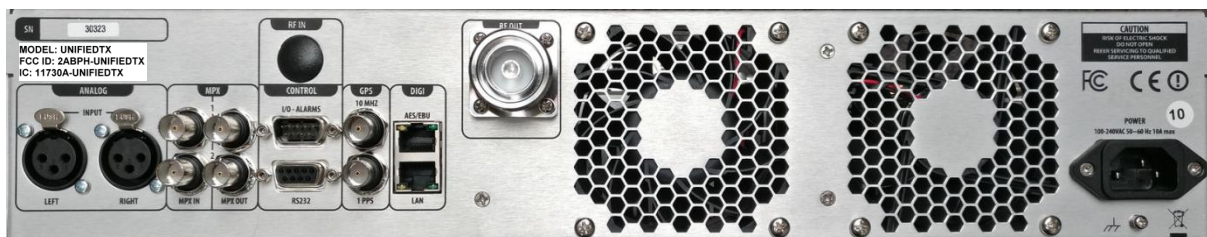

**MODEL: UNIFIEDTX**  
**FCC ID: 2ABPH-UNIFIEDTX**  
**IC: 11730A-UNIFIEDTX**

## 1.2 Position and fixing

The label will be located on the rear panel of the transmitter unit on the left side below the box for serial number (SN) as shown in the picture below.

There are two options how the labels will be affixed to the unit. For standard production the label will be a part of non removable rear panel silk screen. For labelling the existing units a permanent sticker will be used.

## 2 Other labels

There is a VEEE symbol on the rear panel located below the AC input socket. CE and FCC symbols are located above the AC input socket together with Risk of electric shock warning.
