

Compliance Testing, LLC

FCC ID: 1ABRJ-228S

CT Project: P1380011

From: John Erhard

Date: 1/27/14

1. The confidential documents appear to have come from FLYHT but the EUT contains a pair of FCC certified Iridium transmitters as components. Please verify that the confidential documents required are in fact from Iridium. Ensure all agent authorization letters, form, and confidentiality requests from Iridium are obtained. Once completed the review can be completed.

CT – Confidential documents were obtained from Iridium. All documentation/forms can be signed by Flyht since they are the applicant.

2. The Grantee code could not be verified as valid and assigned to FLYHT. Please verify that the grantee code is correct. If necessary change all documents which contain the grantee code to be correct and matching.

CT – Grantee Code is 1ABRJ, created 1/20/2014. Verified on FCC database:

https://apps.fcc.gov/oetcf/eas/reports/GranteeSearchResult.cfm?tcb_code=

3. I could not find an RF exposure report or a minimum safe distance listed in the user's manual. Please provide one of these to meet the RF exposure requirement.

CT – Please see Part 1.1310 Test Report.
