

- 2) liquid has been spilled on the product;
- 3) objects have fallen into the product;
- 4) the product has been exposed to rain or moisture,
- 5) the product does not operate normally, or has been dropped.

- Repairs must be performed by a qualified SENGLED technician.
- For bulb with a weight significantly higher than that of the bulbs for which they are a replacement, the increased weight may reduce the mechanical stability of certain luminaires and bulb holders and may impair contact making and bulb retention. Check that all sockets and bulb holders frequently and make sure they are secure and stable.
- The bulb can be hot and should not be touched without taking care.

CAUTION: NOT FOR USE IN EMERGENCY LIGHTING.

SUITABLE FOR DAMP LOCATIONS.

ENSURE FIXTURE CAN SUPPORT ADDED WEIGHT OF BULB.

#### **FCC STATEMENT FOR USERS**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

#### **SECTION 15.21**

**CAUTION:** changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### **FEDERAL COMMUNICATION COMMISSION INTERFERENCE STATEMENT, SECTION 15.105(b)**

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency

energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### **RF RADIATION EXPOSURE WARNING**

This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operated in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions to satisfy RF exposure compliance.
