Subject: 5G Sub-6GHz OTT VoIP HAC Attestation  
**FCC ID: 2ABZ2-EF14A**

To Whom It May Concern,

We attests that this handset as designed is expected to exhibit similar audio intensity levels between OTT VoIP calls over 4G LTE data connections and 5G Sub-6GHz data connections, and the results using ABM1 values obtained from OTT connections over LTE bands and ABM2 values for 5G Sub-6GHz connections over the same bands provide a reasonable representation of the HAC rating over these 5G Sub-6GHz connections.

Should you have any questions comments about the above, please contact the undersigned.

Sincerely,

\_\_\_\_\_  
Jathan Liu
