

Hui Zhou Gaoshengda Technology Co.,LTD

MODULAR APPROVAL LETTER

Modular Approval Requirement	Yes	No
(i) The radio elements of the modular transmitter must have their own shielding. The physical crystal and tuning capacitors may be located external to the shielded radio elements.		The module must be installed on the mainboard of the product with a shield.
(ii) The modular transmitter must have buffered modulation/data inputs (if such inputs are provided) to ensure that the module will comply with part 15 requirements under conditions of excessive data rates or over-modulation.	The modular data inputs are buffered through logic or micro-controller connections.	
(iii) The modular transmitter must have its own power supply regulation.	RF voltage regulation is handled on the module.	
(iv) The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c). The antenna must either be permanently attached or employ a "unique" antenna coupler (at all connections between the module and the antenna, including the cable). The "professional installation" provision of § 15.203 is not applicable to modules but can apply to limited modular approvals under paragraph (b) of this section.		The limit modular use a specific antenna, as detailed in the user manual.
(v) The modular transmitter must be tested in a stand-alone configuration	The module was tested stand-alone.	
(vi) The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number.	Please refer to FCC ID label.	
(vii) The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for	Please refer to the modular manual.	

Hui Zhou Gaoshengda Technology Co.,LTD

equipment authorization.		
(viii) The modular transmitter must comply with any applicable RF exposure requirements in its final configuration.	Please see the MPE report, the modular meets MPE calculation of 47 CFR 1.107 (b) (1).	

The letter must be on the applicant's letterhead and signed by the grantee code contact.
