

10th June 2021

FCC ID: 2AC20-CHU200MP

Tune Up Procedure

The host contains RF modules with FCC IDs: N7NHL78M and N7NBX31A.

The following procedure is applied to these modules.

There is no tune up procedure for these modules as they are supplied as plug and play devices.

All settings are applied by the module supplier and are stored in memory of each device.

The power output for each device supplied is as follows:

LTE Band 2 output power: 22 dB +/- 1 dB

LTE Band 4 output power: 21 dB +/- 1 dB

LTE Band 12 output power: 23 dB +/- 1 dB

LTE Band 13 output power: 22 dB +/- 1 dB

WiFi output power: 19 dB +/- 1 dB

The SAR test report confirms these levels.

A handwritten signature in blue ink that reads "Cameron Collard".
