Compatible Electronics TCB  
114 Olinda Drive  
Brea, California 92823

Gentlemen:

This product is a gateway device used for controlling remote node devices. It is available only through WLS Systems sales channels and is also installed by WLS Systems factory trained technicians. These systems are not available from any other sources and is not intended for consumer use. This is an outdoor rated system proposed for WLS Systems commercial/industrial customers.

A WLS Systems factory trained professional installer is experience in RF Cable deployment and installation of the gateway is required to properly enable the equipment. Field installers are trained that they shall not deviate from mounting instructions or at any time substitute any of the factory equipment.

If you have any questions, please do not hesitate to contact us at 920-363-0563.

Sincerely,

  
Nate Welch  
Associate Embedded Engineer
