Re: declaration concerning Antenna Specification for:
Product name: Transponder JGA 29001/6 with <2AC9H-JGA29001-6>

To Whom It May Concern:

It is hereby declared that the product fulfils the requirement in FCC test relating to the antenna type.

Evaluation criteria

47 CFR Part 15, Subpart C (Specific rule part §15.203) state that the subject device must meet at least one of the following criteria:

- (a) Antenna must be permanently attached to the unit.
- (b) Antenna must use a unique type of connector to attach the unit.
- (c) Unit must be professionally installed. Installer shall be responsible for verifying that the correct antenna is employed with the unit.

The device specified above confirms to the FCC recommendations for internal antenna type described below:

Model No. of antenna: Not applicable
Type of antenna: Evaluation criteria: (a)
Inductively coupled transponder with antenna coil, single turned, built into the housing
Gain of the antenna: Not applicable
Frequency range: 4.5 MHz

Please contact me if there is any information you may need.

Sincerely,

Jeffrey S. Stover
