

Safety Disclaimer

The i-BRIGHT 7 Smart Surge Protector is made according to U.S. safety standards with non-flammable materials, but like everything connected to the power line, it requires some precautions to prevent any potential electrical shocks. Please read the following safety precautions carefully before using the product.

The i-BRIGHT 7 is designed for indoors use in dry areas only. Never use it in wet areas or outdoors at any time as liquid conduct electricity and pose a serious hazard. If, for any reason, the device is broken or shows any openings, disconnect the power of the i-BRIGHT 7 as the product cannot be used in any improper conditions.

Contact us at support@tricascade.com for support. Note: Only connect i-BRIGHT 7 directly to a wall socket, not to another power strip, and do not exceed 15 Amps maximum total load.

Do not power appliances drawing current higher than 15 Amp of current.

Never dissassemble the device, we will not be able to offer proper warranty for a disassembled units.

There are no serviceable parts inside .

Do not connect i-BRIGHT 7 to any life support devices or heavy Industrial devices .

Warranty and Service

Tri Cascade Inc. (“TCI”) provides one or both of the following warranties (Smart Surge Protector Limited Warranty and Connected Equipment Limited Warranty) to the original consumer of smart surge protectors sold under the i-BRIGHT brand name.

Provisions Applicable to Each Warranty

These warranties apply only to original retail purchaser of i-BRIGHT 7 smart surge protector. These warranties are valid only in the domestic USA.

THESE WARRANTIES ARE IN LIEU OF ALL OTHER EXPRESS WARRANTIES; AND ANY IMPLIED WARRANTIES, INCLUDING BUT NOT LIMITED TO THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS WARRANTY.

EXCEPT AS PROVIDED IN THE CONNECTED EQUIPMENT LIMITED WARRANTY (IF APPLICABLE), IN NO EVENT SHALL TCI BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL OR MULTIPLE DAMAGES ARISING OUT OF THE USE OF THE i-BRIGHT 7 SMART SURGE PROTECTOR. Specifically, TCI is not liable for any costs, such as lost profits or revenue, loss of equipment, loss of use of equipment, loss of software, loss of data, costs of substitutes, claims by third parties or otherwise. Coverage does not apply to connected life support devices, medical devices or industrial equipment. All warranties contained herein are null and void if used in anyway with any of the aforementioned devices

Please visit our website www.TriCascade.com for additional warranty information.

FEDERAL COMMUNICATIONS COMMISSION INTERFERENCE STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement:

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.
