Re: FCC ID: 2ACBG-02000 (ikeGPS BT Laser measurement)

Due to issues arising from product changes and delays in laser certification more time is needed until we launch this product into the market. As we have concerns over product confidentiality we would like to ask FCC to dismiss this application. We will re-certify this product when it is ready for the market.

The product was certified last month, 09/02/2014, and has not been marketed yet. Please dismiss this application ASAP.

Kind regards
