Quick Start Guide

Start

Press and hold the power key

Note: you can use your computer's USB port for power as well.

Choose Wi-Fi on your computer, smartphone or tablet settings, then select your Mobile Wi-Fi network name.

Enter the password to connect and open the web interface.

When you first connect to the network you may be asked to activate your SIM. If you're asked to unlock your SIM card, go to http://vodafonemobile.wifi and enter the PIN for your SIM.

Turn over for more information about using your Vodafone Mobile WiFi.

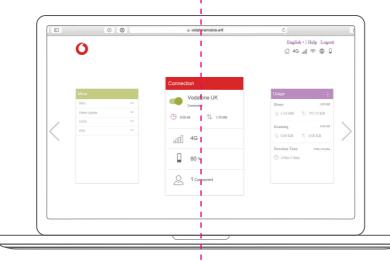

Your Vodafone Mobile WiFi network name & password

SSID sticker here

Using the web interface at vodafonemobile.wifi

You can find the web interface on vodafonemobile.wifi if it doesn't appear automatically when you connect. Then login using the password admin

Then you can see your network and Wi-Fi status, how much data you have used, get help and support, and even send and receive SMS messages from your computer.

What the lights mean

Signal

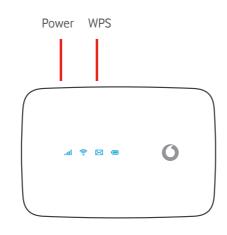

Connected to 4G network

Connected to 3G network

... Connected to 2G network

Registered to the network, but not connected (no internet)

No connection. This could be because the SIM card is not inserted correctly, or because there is no network signal.
