Subject: Request permission to use Wi-Fi/BT/USB/GSM/WCDMA/LTE/SAR test results from model **5033A** in our applications for model **5033E**

FCC ID: 2ACCJH089

To whom it may concern:

We request permission to use Wi-Fi/BT/USB/GSM/WCDMA/LTE/SAR test results from model **5033A** (FCC ID: 2ACCJH089) in our applications for model **5033E** (FCC ID: 2ACCJH089).

Changes:

1. Memory changed from 8+1 to 16+1, the memory chip is pin to pin compatible;
2. Changed from single SIM to dual SIM, but PCB layout is the same;
3. Software changed from 7LT2 to 7LTD, only updated some security patch. Others are fully same with basic model.

For the above, we performed SAR spot check and Radiated Emission tests. The rest test results all come from the initial model 5033A.

Sincerely yours,
