3

Home screen

You can bring all of the items (applications, shortcuts, folders) that you use most frequently to your Home screen for quick access.

Touching the **Home** button always takes you back to the main Home screen.

1 : Tap to access the complete Settings menu.

2 : With the notification panel open, touch  again or drag down to see the Quick Settings menu.

Phone call

Making a call

Enter the desired number from the keyboard and touch  to make a call.

Answering a call

When you receive a call, swipe right  to answer or swipe left  to reject:

1 : Reject by SMS

Contacts

You can view and create contacts on your phone and synchronize these with your Gmail contacts or other applications on the web or on your phone.

1 : Search in **Contacts**

2 : Open the Quick contact panel

Long press to select contact to delete

3 : Add new contact

Messaging

You can create, edit, and receive SMS and MMS.

An SMS will be converted to MMS automatically when media files (image, video, audio, etc.) are attached or add content to the subject bar or email addresses are added in contact bar.

1 : Send the text message

2 : Insert emoticons

Gmail

The first time you set up your phone, you can select to use an existing Email account or to add a new one.

- 1 : Account information
- 2 : See options and settings
- 3 : Swipe right or left to archive the email
- 4 : Create an email
