Subject: FCC Class II Permissive change for FCC ID: 2ACCJH168

To whom it may concern:

This is to request a Class II Permissive change for FCC ID: 2ACCJH168, originally granted on Feb 1st, 2023.

The Major change filed under this application is as below:

Software Change:

- **3550-3700MHz: enable channel bandwidth 40/50/60/70/80/90/100MHz and modulation pi/2 BPSK to support n48.**
- **n2/n5 enable SA mode, n77 disable NSA mode.**

Hardware Change:

- **Add one ESIM chip to support ESIM feature.**

Accessory Change:

- **Add one new battery.**

As the concern above, we performed NR/SAR test for 5G NR band n2/n5/n48/n77(NSA), spot check for HAC RF and T-coil test for 5G NR n48, worst case for Part 15B. The other test results all come from the initial model of T609DL.

Thank you.
Sincerely,

A handwritten signature in black ink, appearing to be 'Zi Xiaogang', written over a light blue rectangular stamp or background.
