Subject: 5G Sub-6GHz HAC Attestation
FCC ID: 2ACCJN058

To Whom It May Concern,

We attest the handset as designed is expected to exhibit similar audio intensity levels between a voice call placed over a VoLTE connection and over a 5G Sub-6GHz connection. The combination of ABM1 values from a VoLTE connection and ABM2 values from the 5G Sub-6GHz connection, while maintaining a S+N/N margin of 3dB or greater from the rating threshold, is expected to represent the HAC performance when operating in 5G Sub-6GHz bands.

Should you have any questions or comments concerning the above, please contact the undersigned.

Yours Sincerely,

A handwritten signature in black ink that reads "Peter Yang".
