Subject: Request for a Class II Permissive Change

FCC ID: 2ACCRMC17
Grant Date(s): 08/16/2019

Pursuant to CFR47 §2.1043, the Grantee hereby requests a Class II Permissive Change for the above identified device.

Following changes apply to the modified device:

Since the Output Power is 0.003 Watt, the following sentence in the Grant is omitted:

“This transmitter is approved for use in mobile RF exposure category configurations with the antenna(s) installed to provide a separation distance of at least 20 cm from all persons.”

There are no further changes made to the original product. There are no changes made to the transmitter circuitry and the above listed changes result in the same RF characteristics as in the original filing - therefore the not repeated test results continue to be representative of and applicable also to this modified device. There is neither an increase in the output power, nor a change of the RF Exposure condition or equipment class and there are no other changes to the device that indicate a need for a new FCC ID.

Sincerely,

Carsten Steinroeder, Bluetooth Lab Manager
