Columbia, MD 21046

Dear Sir/Madam,

We, PreSonus Audio Electronics, Inc., hereby declare that the following products:

Mixer, Model numbers:

StudioLive AR16 USB,

StudioLive AR12 USB,

StudioLive AR8 USB,

are electrically identical with the same electromagnetic emissions and electromagnetic compatibility characteristics.

The differences between the 3 models are as follows:

The number of analog input channels are different, the StudioLive AR8 USB has eight (8) inputs, the StudioLive AR12 USB has fourteen (14) inputs and the StudioLive AR16 USB has eighteen (18) inputs. The StudioLive AR8 uses rotary potentiometers for all analog volume control. The StudioLive AR12 and StudioLive AR16 both use linear potentiometer for channel analog volume control. The potentiometer function is the same for all three models.

If you have any question, please feel free to contact with me.

Best Regards
