WIRELESS FINGERPTT

INSTRUCTIONS

Thank you for purchasing the N2W Wireless FingerPTT. The device makes it easy to communicate wireless with Two-way radios and other communication devices, while on the move or in an office. You can connect the PTT to a compatible phone that supports Bluetooth wireless technology.

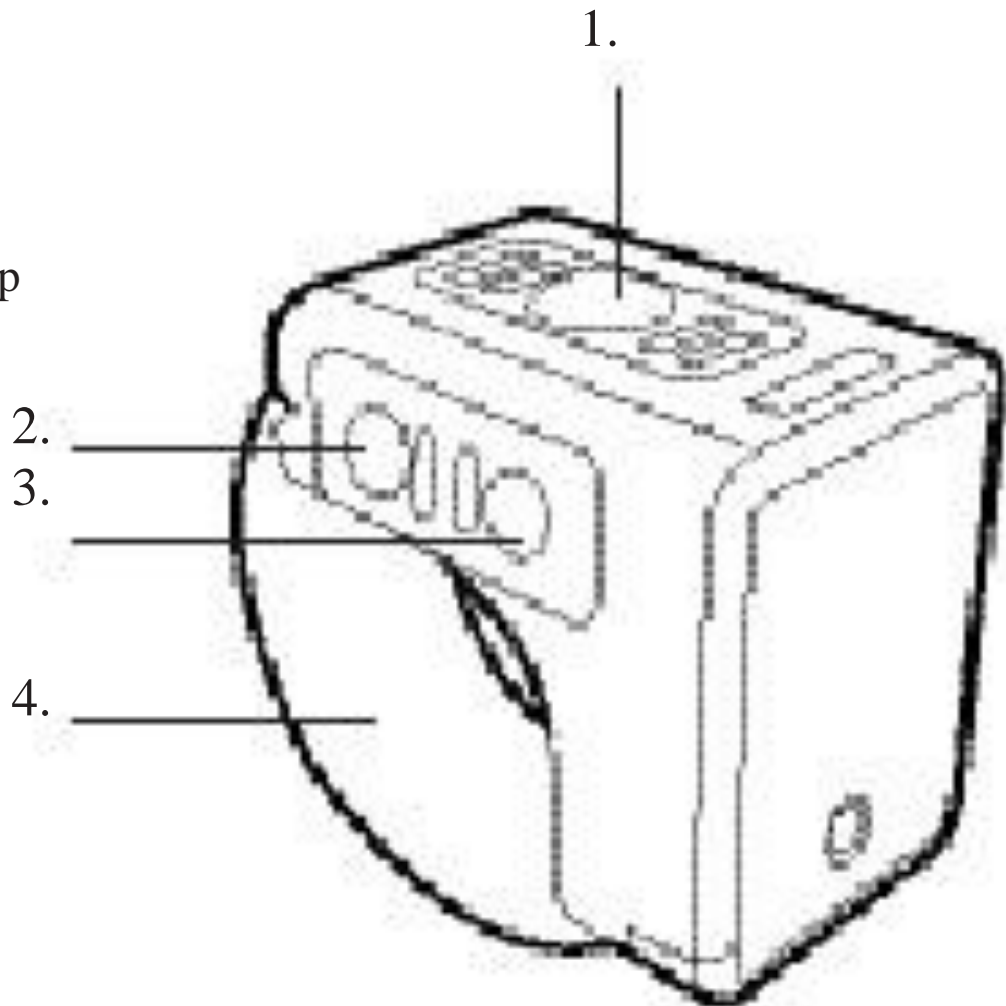

Please read the user manual to make the best use of this FingerPTT and its many features.

GET STARTED

Overview

The FingerPTT contains the following parts as shown in the figure:

1. PTT button
2. Volume +
3. Volume -
4. Finger strap

Before you can start using the product, you must charge the battery and pair the headset with a compatible phone.

PAIRING THE RADIO, SPEAKERMIC AND THE WIRELESS FINGER PTT

1. Take the wireless FingerPTT.
2. Press the + and - volume buttons at the same time.
3. Hold it for 5 seconds until you can see the LED flashes 2 times red.

FCC WARNING

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
